Translation Series Pali Text Society),1910 **The Land of the Lama** David Macdonald,1929 Cosmologies of Pure Realms and the Rhetoric of Pollution Yohan Yoo,James W. Watts,2021-05-30 This collaboration between two scholars from different fields of religious studies draws on three comparative data sets to develop a new theory of purity and pollution in religion arguing that a culture s beliefs about cosmological realms shapes its pollution ideas and its purification practices The authors of this study refine Mary Douglas foundational theory of pollution as matter out of place using a comparative approach to make the case that a culture s cosmology designates which materials in which places constitute pollution By bringing together a historical comparison of Ancient Near Eastern and Mediterranean religions an ethnographic study of indigenous shamanism on Jeju Island Korea and the reception history of biblical rhetoric about pollution in Jewish and Christian cultures the authors show that a cosmological account of purity works effectively across multiple disparate religious and cultural contexts They conclude that cosmologies reinforce fears of pollution and also that embodied experiences of purification help generate cosmological ideas Providing an innovative insight into a key topic of ritual studies this book will be of vital interest to scholars and graduate students in religion biblical studies and anthropology *Realm of the Gods* Catherine Cooke,1988 The sleeping Goddess created Arris to be her consort to release her from her 1 000 year slumber at the moment of his sacrifice But Arris will not give his life to the Goddess and must run for his life from all the gods Sequel to *The Winged Assassin* The Divine Renaissance J.
