Reason And Culture An Introduction To Philosophy

Aaron Stoller, Eli Kramer

Reason And Culture An Introduction To Philosophy:

Reason and Culture John Arthur, Amy Shapiro, William Throop, 2001 This introduction to philosophy offers a selection of readings based on an interdisciplinary applied approach and illustrating the challenges religion science and morality pose to one another It demonstrates to readers how philosophy is practiced today rather than in years past and engages them in a relevant and immediately comprehensible manner The book maintains the critical rational edge of traditional philosophical writing while at the same time incorporating material and approaches not usually found in introductory volumes Reason sections provide traditional philosophical truth claims made in each subject Culture sections investigate the social issues that arise from these claims What Is Morality Morality and the Good Life Morality in Higher Education Morality in Film Morality in Law Morality in Markets Morality and Rational Self Interest Classical Theories of Morality Critical Perspectives on Morality Feelings and Reason in Morality What Is Science Science and a Meaningful Life The Scientific World View and Its Critics Science Technology and the Transformation of Culture Biology and Ethics Scientific Determinism and Human Responsibility Objectivity and Values in Science Truth and Progress in Science How Much Can Science Explain What Is Religion Religion and the Meaning of Life Pluralism and Religious Diversity Religion and Politics Religion and Education Evidence for the Existence of God Evidence Against the Existence of God Faith and Reason Religious Practice without God For anyone interested in philosophy

The Philosophy of Ernst Cassirer J Tyler Friedman, Sebastian Luft, 2015-06-16 This volume brings Cassirer s work into the arena of contemporary debates both within and outside of philosophy All articles offer a fresh and contemporary look at one of the most prolific and important philosophers of the 20th century The papers are authored by a wide array of scholars working in different areas such as epistemology philosophy of culture sociology psychopathology philosophy of science and aesthetics

A World of Difference (Reasons to Believe) Kenneth Richard Samples, 2007-09-01 Recent Barna research indicates that less than one in ten evangelical Christians hold a biblical worldview A World of Difference seeks to change this disturbing fact by educating readers on how the Christian perspective is uniquely reasonable verifiable and liveable Author Kenneth Richard Samples faced a profound test of his own belief system during a personal life and death crisis In A World of Difference he uses nine distinct tests to compare the Christian worldview with current religious and philosophical competitors including Islam postmodernism naturalism and pantheistic monism Samples tackles tough issues through this in depth study of Christianity s history creed and philosophical basis An excellent resource for readers who want their view of life and the world to make sense

The Space of Culture Sebastian Luft, 2015-10-01 Sebastian Luft presents and defends the philosophy of culture championed by the Marburg School of Neo Kantianism Following a historical trajectory from Hermann Cohen to Paul Natorp and through to Ernst Cassirer this book makes a systematic case for the viability and attractiveness of a philosophical culture in a transcendental vein in the manner in which the Marburgers intended to broaden Kant s approach In providing a philosophical study of culture Luft adheres to

important Kantian tenets while addressing empirical studies of culture The Space of Culture culminates in an exploration of Cassirer's Philosophy of Symbolic Forms and argues for the extent to which Cassirer's thought was firmly rooted in the Marburg School despite his originality At the same time it shows how Cassirer opened up the philosophical study of culture to new horizons making it attractive for contemporary philosophy

The Philosophy of Philip Rieff William G. Batchelder IV, Michael P. Harding, 2025-01-23 Arguing that Philip Rieff was a Freudian who departed in vital and fascinating ways from Freud and a committed modern who nevertheless viewed modernity as a disaster this book makes clear his thought transcends contemporary left right culture war dichotomies Alasdair MacIntyre described Rieff's early work as a permanently valuable contribution to the human sciences The essays in this volume engage with Rieff's teaching both early and late across a number of different axes and from a number of disciplinary perspectives placing him into dialogue with thinkers such as Plato Nietzsche Freud Weber Heidegger Strauss Pieper Wilde and more The Philosophy of Philip Rieff conveys the utility of Rieff's theory for thinking through various contemporary issues from religion culture and race to the role of elites in a democratic society Philip Rieff's thought offers a key to unlocking the cultural trajectories of late modernity and this interdisciplinary volume engages that work in its depth and complexity while suggesting Rieff's place in the wider philosophic tradition

Nietzsche's Philosophy of Life Affirmation Michael J. McNeal, 2024-12-23 This anthology broadly examines the interrelated roles of art science and experimentation in Nietzsche's philosophical project It is divided into two parts the first organized around the theme of experimentally reconceiving our world the second investigating the aforementioned subjects in Nietzsche's free spirit or middle period works Together the essays comprising the book underscore Nietzsche's concern that experimentation with values ultimately provide humankind with a new wherefore or purpose Wide ranging in its scope this volume brings together a diverse group of scholars working in both the analytic and continental traditions to provide original insights into Nietzsche's thought A unique contribution to the scholarship it deepens understanding of the relationship between Nietzsche's critiques of art and science the role this relationship plays in his futural thought and the experimental life affirming practices that his free spirit project may enable toward the transfiguration of humankind

Philosophy, Science, Education and Culture Robert Nola, Gürol Irzik, 2006-02-22 Currents such as epistemological and social constructivism postmodernism and certain forms of multiculturalism that had become fashionable within science education circles in the last decades lost sight of critical inquiry as the core aim of education In this book we develop an account of education that places critical inquiry at the core of education in general and science education in particular Since science constitutes the paradigm example of critical inquiry we explain the nature of science paying particular attention to scientific methodology and scientific modeling and at the same time showing their relevance in the science classroom We defend a universalist rationalist and objectivist account of science against epistemological and social constructivist views postmodernist approaches and epistemic multiculturalist accounts

Contemporary Philosophical Proposals for the University Aaron Stoller, Eli Kramer, 2018-02-12 This edited collection brings together a robust range of philosophers who offer theoretically and critically informed proposals regarding the aims policies and structures of the university The collection fills a major gap in the landscape of higher education theory and practice while concurrently reviving a long and often forgotten discourse within the discipline of philosophy It includes philosophers from across the globe representing disparate philosophical schools as well as various career stages statuses and standpoints within the university There is also a diversity in method approach and style which varies from personal narratives and case studies to philosophical genealogies to traditional philosophical essays and to systematic theories The collection can serve as a theoretical resource for critically minded administrators and faculty who wish to analyze and change policies and structures at their home institutions It will introduce them to a wide range of possible educational imaginaries as well as provide them with productive suggestions for pragmatic change on campuses

Hermann Cohen's Critical Idealism Reinier W. Munk, 2006-07-19 Hermann Cohen 1842 1918 is an original systematic thinker and representative of the Marburg School of Critical Idealism The Marburg School was a leading school in German academic philosophy and in German Jewish philosophy for a period of over thirty years preceding the First World War Initially standing at the front of the Return to Kant movement Cohen subsequently went beyond Kant in developing a system of critical idealism in which he offered a critique of and alternative to absolute idealism positivism and materialism A critical idealist in heart and soul Cohen is also recognized as a man who embodied German Jewish culture Publications on Cohen in the English language are small in number and this volume aims to fill the gap It offers an analysis of Cohen's System of Philosophy the three volume classic on logic ethics and aesthetics and his writings on Judaism and religion The book highlights Cohen's contributions in these fields including his discussions with Maimonides Leibniz Kant and Hegel It demonstrates the congeniality of Cohen's critical idealism as expounded in the System and his writings on Judaism and offers an overview of contemporary Cohen research

Cassirer Samantha Matherne, 2021-04-25 Ernst Cassirer 1874 1945 occupies a unique place in 20th century philosophy His view that human beings are not rational but symbolic animals and his famous dispute with Martin Heidegger at Davos in 1929 are compelling alternatives to the deadlock between analytic and continental approaches to philosophy An astonishing polymath Cassirer's work pays equal attention to mathematics and natural science but also art language myth religion technology and history However until now the importance of his work has largely been overlooked In this outstanding introduction Samantha Matherne examines and assesses the full span of Cassirer's work Beginning with an overview of his life and works she covers the following important topics Cassirer's neo Kantian background Philosophy of mathematics and natural science including Cassirer's first systematic work Substance and Function and subsequent works like Einstein's Theory of Relativity The problem of culture and the ground breaking The Philosophy of Symbolic Forms Cassirer's ethical and political thought and his diagnosis of fascism in The Myth of the State Cassirer's influence and legacy Including chapter

summaries suggestions for further reading and a glossary of terms this is an ideal introduction to Cassirer's thought for anyone coming to his work for the first time It is essential reading for students in philosophy as well as related disciplines such as intellectual history art history politics and literature
