Reason And Society In The Middle Ages:

Reason and Society in the Middle Ages Alexander Murray,1978 This book concentrates on the 250 years between the late 11th and early 14th centuries and studies two key facets of the rationalistic tradition mathematics and the broader current represented by a literary education

God and Reason in the Middle Ages Edward Grant,2001-07-30 Between 1100 and 1600 the emphasis on reason in the learning and intellectual life of Western Europe became more pervasive and widespread than ever before in the history of human civilization Of crucial significance was the invention of the university around 1200 within which reason was institutionalized and where it became a deeply embedded permanent feature of Western thought and culture It is therefore appropriate to speak of an Age of Reason in the Middle Ages and to view it as a forerunner and herald of the Age of Reason that was to come in the seventeenth century The object of this study is twofold to describe how reason was manifested in the curriculum of medieval universities especially in the subjects of logic natural philosophy and theology and to explain how the Middle Ages acquired an undeserved reputation as an age of superstition barbarism and unreason

Life and Religion in the Middle Ages Flocel Sabaté,2015-09-04 Religious experience in the European Middle Ages represented an intersection of a range of aspects of existence including everyday life relations of power and urban development among others As such religion offered a reflection of many facets of life in this period This book brings together scholars from different parts of the world who use a variety of different examples from the medieval era to show this specific path through which to reach a renewed perspective for understanding the European Middle Ages

Human Agency in Medieval Society, 1100-1450 Ionuț Epurescu-Pascovici,2021 Argues the case for the individual as autonomous moral agent in the later Middle Ages

Warfare, Crusade and Conquest in the Middle Ages John France,2023-04-21 This volume brings together a series of articles by John France published over a span of more than forty years covering a number of aspects of the military and crusading history of the Middle Ages both in Europe and the Near East An interest in understanding how war worked and why informs a first group of articles ranging from Carolingian armies to the organisation of war in the 13th century The focus then turns to the Crusades the most ambitious conquests of the era with a set of studies on the First Crusade and others on the manner and conduct of warfare in the territories of the Latin East The volume also includes a major unpublished analysis co authored with Nicholas Morton of the problems faced by the local Islamic powers in the early Crusading period reminding us that an army is only as strong as its enemies permit and suggesting that the crusaders should be seen in this light

Stages of Thought Michael Horace Barnes,2009-07-15 This work approaches the question of the relationship of religious to scientific thought The author argues that they evolved together and are therefore complementary

Law, Justice, and Society in the Medieval World Esther Liberman Cuenca,M. Christina Bruno,Anthony Perron,2025-05-06 This coursebook is the first full length study of cinematic legal medievalism or the modern interpretation of medieval law in film and popular culture For more than a century filmmakers have used the Middle Ages to produce popular entertainment

and comment on contemporary issues Each of the twenty chapters in *Law Justice and Society in the Medieval World* represents an original contribution to our understanding of how medieval regulations laws and customs have been depicted in film It offers a window into the rules of medieval society through the lens of popular culture This book includes analyses of recent and older films avant garde as well as popular cinema Films discussed in this book include *Braveheart* 1995 *Kingdom of Heaven* 2005 *The Passion of Joan of Arc* 1928 *The Last Duel* 2021 *The Green Knight* 2021 *The Little Hours* 2017 and *The Adventures of Robin Hood* 1938 among others Each chapter explores the contemporary context of the film in question the medieval literary or historical milieu the film references and the lessons the film can teach us about the medieval world Attached to each chapter is an appendix of medieval documentary sources and reading questions to prompt critical reflection

How to Plan a Crusade Christopher Tyerman, 2017-10-03 The story of the wars and conquests initiated by the First Crusade and its successors is itself so compelling that most accounts move quickly from describing the Pope's calls to arms to the battlefield In this highly original and enjoyable new book Christopher Tyerman focuses on something obvious but overlooked the massive all encompassing and hugely costly business of actually preparing a crusade The efforts of many thousands of men and women who left their lands and families in Western Europe and marched off to a highly uncertain future in the Holy Land and elsewhere have never been sufficiently understood Their actions raise a host of compelling questions about the nature of medieval society *How to Plan a Crusade* is remarkably illuminating on the diplomacy communications propaganda use of mass media medical care equipment voyages money weapons wills ransoms animals and the power of prayer during this dynamic era It brings to life an extraordinary period of history in a new and surprising way

Crime, Law and Society in the Later Middle Ages, 2013-01-01 This book provides an accessible collection of translated legal sources through which the exploits of criminals and developments in the English criminal justice system c 1215-1485 can be studied Drawing on the wealth of archival material and an array of contemporary literary texts it guides readers towards an understanding of prevailing notions of law and justice and expectations of the law and legal institutions Tensions are shown emerging between theoretical ideals of justice and the practical realities of administering the law during an era profoundly affected by periodic bouts of war political in fighting social dislocation and economic disaster Introductions and notes provide both the specific and wider legal social and political contexts in addition to offering an overview of the existing secondary literature and historiographical trends This collection affords a valuable insight into the character of medieval governance as well as revealing the complex nexus of interests attitudes and relationships prevailing in society during the later Middle Ages
