

Reassessing The Sixties

Stephen Macedo

Reassessing The Sixties:

Reassessing the Sixties Stephen Macedo, 1997-01-01 Essays examine the impact of the sixties in the areas of gender roles the family education race relations and the Civil Rights movement **Taking Back the Academy!** Jim Downs, Jennifer Manion, 2004 This text is both an historical look at activism on campus since the 1960s and an exploration of the ways in which the historians craft leads to social change The authors defend political dissent and document the importance of activism and public debate on college campuses Stuck In The Sixties George Rising, 2010-11-08 The 1960s were a colorful tumultuous age that transformed American society Ever since the decade ended Americans have debated the changes that it unleashed While most liberals argue that the era's effects were mainly positive and long overdue conservatives perceive the 1960s as a disastrous time that has left ruinous legacies for us *Stuck in the Sixties* analyzes conservatives' views about the 1960s era and its legacies by examining their discourse about such sixties figures and movements as John F Kennedy Martin Luther King Jr the civil rights movement the Warren Court the Great Society the Vietnam War the anti war movement the New Left and the counterculture The book reveals that for a generation a focus on attacking and reversing the legacies of the 1960s has been essential to the conservative Republican agenda *1968: The World Transformed* Carole Fink, Philipp Gassert, Detlef Junker, 1998-10-28 1968 *The World Transformed* presents a global perspective on the tumultuous events of the most crucial year in the era of the Cold War By interpreting 1968 as a transnational phenomenon authors from Europe and the United States explain why the crises of 1968 erupted almost simultaneously throughout the world Together the eighteen chapters provide an interdisciplinary and comparative approach to the rise and fall of protest movements worldwide The book represents an effort to integrate international relations the role of media and the cross cultural exchange of people and ideas into the history of that year 1968 emerges as a global phenomenon because of the linkages between domestic and international affairs the powerful influence of the media the networks of communication among activists and the shared opposition to the domestic and international status quo in the name of freedom and self determination **The Columbia Guide to America in the 1960s** David Farber, Beth Bailey, 2003-04-09 The 1960s continue to be the subject of passionate debate and political controversy a touchstone in struggles over the meaning of the American past and the direction of the American future Amid the polemics and the myths making sense of the Sixties and its legacies presents a challenge This book is for all those who want to take it on Because there are so many facets to this unique and transformative era this volume offers multiple approaches and perspectives The first section gives a lively narrative overview of the decade's major policies events and cultural changes The second presents ten original interpretative essays from prominent historians about significant and controversial issues from the Vietnam War to the sexual revolution followed by a concise encyclopedia articles organized alphabetically This section could stand as a reference work in itself and serves to supplement the narrative Subsequent sections include short topical essays special subjects a brief chronology and finally

an extensive annotated bibliography with ample information on books films and electronic resources for further exploration With interesting facts statistics and comparisons presented in almanac style as well as the expertise of prominent scholars The Columbia Guide to America in the 1960s is the most complete guide to an enduringly fascinating era *The Sixties* Arthur Marwick,2011-09-28 If the World Wars defined the first half of the twentieth century the sixties defined the second half acting as the pivot on which modern times have turned From popular music to individual liberties the tastes and convictions of the Western world are indelibly stamped with the impact of this tumultuous decade Framing the sixties as a period stretching from 1958 to 1974 Arthur Marwick argues that this long decade ushered in nothing less than a cultural revolution one that raged most clearly in the United States Britain France and Italy Marwick recaptures the events and movements that shaped life as we know it the rise of a youth subculture across the West the sit ins and marches of the civil rights movement Britain s surprising rise to leadership in fashion and music the emerging storm over Vietnam the Paris student uprising of 1968 the growing force of feminism and much more For some it was a golden age of liberation and political progress for others an era in which depravity was celebrated and the secure moral and social framework subverted The sixties was no short term era of ecstasy and excess On the contrary the decade set the cultural and social agenda for the rest of the century and left deep divisions still felt today **A Cultural History of the Radical Sixties in the San Francisco Bay Area** Anthony Ashbolt,2015-10-06 The San Francisco Bay Area was a meeting point for radical politics and counterculture in the 1960s Until now there has been little understanding of what made political culture here unique This work explores the development of a regional culture of radicalism in the Bay Area one that underpinned both political protest and the counterculture *The Sixties in America* M. J. Heale,2001 First Published in 2001 Routledge is an imprint of Taylor Francis an informa company **Debating the 1960s** Michael W. Flamm,David Steigerwald,2008 The conventional interpretation of the 1960s emphasizes how liberal even radical the decade was It was after all the age of mass protests against the Vietnam War and social movements on behalf of civil rights and women s rights It was also an era when the counterculture challenged many of the values and beliefs held by morally traditional Americans But a newer interpretation stresses how truly polarized the 1960s were It portrays how radicals liberals and conservatives repeatedly clashed in ideological combat for the hearts and minds of Americans Millions in the center and on the right contested the counterculture defended the Vietnam War and opposed civil rights Debating the 1960s explores the decade through the arguments and controversies between radicals liberals and conservatives The focus is on four main areas of contention social welfare civil rights foreign relations and social order The book also examines the emergence of the New Left and the modern conservative movement Finally it assesses the enduring importance of the 1960s on contemporary American politics and society Combining analytical essays and historical documents the book highlights the polarization of the decade by focusing on the political social and cultural debates that divided the nation then and now **The 1960s** Brian Ward,2009-11-02

Drawn from a wide range of perspectives and showcasing a variety of primary source materials Brian Ward's *The 1960s A Documentary Reader* highlights the most important themes of the era. Supplies students with over 50 primary documents on the turbulent period of the 1960s in the United States. Includes speeches, court decisions, acts of Congress, secret memos, song lyrics, cartoons, photographs, news reports, advertisements, and first-hand testimony. A comprehensive introduction, document headnotes, and questions at the end of each chapter are designed to encourage students to engage with the material critically.

Unveiling the Magic of Words: A Review of "**Reassessing The Sixties**"
