Rebels And Rulers 1500 1600 Society States And Early Modern Revolution:

Rebels and rulers : 1500 - 1660. 1. Society, states, and early modern revolution. Agrarian and urban rebellions

Perez Zagorin, 1982 *Rebels and Rulers 1500 1660* is a comparative historical study of revolution in the greatest royal states of Western Europe during the sixteenth and the first half of the seventeenth centuries. Revolution as a general problem and the causes and character of revolution in early modern Europe have been among the most widely discussed and debated topics in history and the social sciences since the 1940s. Although the subject of social and political unrest and revolution in the early modern period has received much attention and despite the existence of a very large literature devoted to particular revolutions of the time, no one has attempted the broad comparative synthesis that is given by Professor Zagorin in this study. Volume I of *Rebels and Rulers* presents a critical discussion of different concepts and interpretations of revolution including Marxism. It reviews previous attempts to deal with early modern revolutions and suggests a typology appropriate to the latter. It then provides an extensive survey of the historical context in which these revolutions occurred: the social structures of orders and estates, the political system of monarchy and the process of absolutist state building, economic trends and fluctuations, and ideology. The volume concludes with a detailed treatment of peasant rebellions especially in Germany and France and with an equally close look at urban rebellions in France and the possessions of the Spanish monarchy, including the revolution of the Comuneros in Castile.

Rebels and Rulers, 1500-1600: Volume 1, Agrarian and Urban

Rebellions Perez Zagorin, 1982-10-21 *Rebels and Rulers 1500 1660* is a comparative historical study of revolution in the greatest royal states of Western Europe during the sixteenth and the first half of the seventeenth centuries. The Early Modern Town in Scotland Michael Lynch, 2021-10-12 Originally published in 1987 this volume filled a notable gap in Scottish urban history and considers the place of Scottish towns in urban life during the 16th and 17th Centuries The first part of the book is based on studies of individual burghs Aberdeen Dundee Edinburgh and Perth drawing extensively on archival material The second part includes a discussion of the pressure put upon the burghs by the town between 1500 and 1650 a process which contributed to the destruction of the medieval burgh and examines the burgh during the Scottish Revolution The impact of war and plague on Scottish towns in the 1640s is also analysed and much emphasis is given to the relationship between town and country

A Radical History Of Britain Edward Vallance, 2013-04-04 From medieval Runnymede to twentieth century Jarrow from King Alfred to George Orwell by way of John Lilburne and Mary Wollstonecraft a rich and colourful thread of radicalism runs through a thousand years of British history In this fascinating study Edward Vallance traces a national tendency towards revolution irreverence and reform wherever it surfaces and in all its variety He unveils the British people who fought and died for religious freedom universal suffrage justice and liberty and shows why now more than ever their heroic achievements must be celebrated Beginning with Magna Carta Vallance subjects the touchstones of British radicalism to rigorous scrutiny He evokes the figureheads of radical action real and mythic Robin Hood and Captain Swing Wat Tyler Ned Ludd Thomas Paine and Emmeline Pankhurst and the popular movements that bore them Lollards and Levellers Diggers Ranters and Chartists each has its membership principles and objectives revealed *The Struggle for Power in Early Modern Europe* Daniel H. Nexon, 2009-04-20 Looks at the pivotal events of the sixteenth and seventeenth centuries including the Schmalkaldic War the Dutch Revolt and the Thirty Years War This book argues that early modern composite political communities had more in common with empires than with modern states *Resistance in the Iberian Worlds from the*

Fifteenth to the Eighteenth Century Pablo Sánchez León, Benita Herreros Cleret de Langavant, 2024-10-01 This book highlights the broad scope and span of resistance as a contentious practice in the early modern Iberian world In this context from the late Middle Ages onwards resistance rooted in the political and legal language of the old regime that provided agents with legitimacy and resources for their actions occurred mainly within the established jurisdictional system These resources for litigation and demand made resistance a widespread kind of contesting practice related to wider protests The authors assess the wide array of actions developed by individuals and communities to preserve their rights and identities demonstrating how the Portuguese and Hispanic polities and their colonial possessions experienced resistance from below over a long period of change that marked the rise of more complex communities and institutional systems This book offers a comprehensive overview of the variety of forms and expressions of resistance developed in different social cultural and territorial contexts thus shedding additional light on the relationship between order and conflict within early modern European empires Chapter 3 is available open access under a Creative Commons Attribution 4 0 International License via link.springer.com *The Catholic Church and European State Formation, AD 1000-1500* Jørgen Møller, Jonathan Stavnskær Doucette, 2022 The Catholic Church and European State Formation AD 1000 1500 inserts the Catholic Church as the main engine of the persistent international and domestic power pluralism which has moulded European state formation for almost a millennium **Flesh in the Age of Reason** Roy Porter, 2005-01-27 As an introduction to early modern thinking and the impact of past ideas on present lives this book can find few equals and no superiors Porter is a witty humane writer with an extraordinary vocabulary and a sparkling sense of fun Whether he is quoting from obscure medical texts or analysing scabrous diaries dishing the dirt on long dead bigwigs or evoking sympathy for human suffering his grasp is masterly and his erudition appealing I wish I could read it again for the first time you can Times Educational Supplement Book of the Week In this startlingly brilliant sequel to the prize winning ENLIGHTENMENT Roy Porter completes his lifetime's work offering a magical enthusiastic and charming account of the writings of some of the most attractive figures ever to write English
