Rebirthing For Life:

Life Unlimited Edward Franco, 2011-11 Is it possible that the death of our physical bodies was never part of a divine plan Is it possible that the key to unlocking our immortality lies not so much in the realm of science as it does in our own hearts and minds In *Life Unlimited* author Edward Franco examines the attitudes and beliefs surrounding aging death and physical immortality An interactive exploration of self *Life Unlimited* raises questions that may seem blasphemous to some but which may be necessary for awakening our true potential This guide explores how you can accomplish the following Recognize the powerful value of the mind body connection Enhance well being through regular spiritual practices Realize the impact of self concept on aging health and wellness Learn to say no to cultural conditioning and stereotypes around aging Understand how our egos can undermine the lofty intentions of our higher spiritual selves Celebrate the gifts of adulthood and maturity *Life Unlimited* considers the doubts fears and perplexities humans experience in various life situations and illustrates how to find new understanding and guidance It provides a unique perspective on the subject of aging and longevity *The New Age Primer* Various, Robert Shapiro, Glenn Phillips, Virgil Armstrong, 1993 Welcome to the New Age It is here Now Everywhere From the way medicine treats the body mind and spirit to quantum physics and the films you see you are noticing a changing reality Whether you are a newcomer to this age or an adept you will find this overview fascinating informative and empowering It is a textbook designed to clarify concepts once considered alien to Western thinking As a guidebook to expand your reality it can change your ideas about time space matter and even who you are **Truly Human Enhancement** Nicholas Agar, 2023-09-19 A nuanced discussion of human enhancement that argues for enhancement that does not significantly exceed what is currently possible for human beings The transformative potential of genetic and cybernetic technologies to enhance human capabilities is most often either rejected on moral and prudential grounds or hailed as the future salvation of humanity In this book Nicholas Agar offers a more nuanced view making a case for moderate human enhancement improvements to attributes and abilities that do not significantly exceed what is currently possible for human beings He argues against radical human enhancement or improvements that greatly exceed current human capabilities Agar explores notions of transformative change and motives for human enhancement distinguishes between the instrumental and intrinsic value of enhancements argues that too much enhancement undermines human identity considers the possibility of cognitively enhanced scientists and argues against radical life extension Making the case for moderate enhancement Agar argues that many objections to enhancement are better understood as directed at the degree of enhancement rather than enhancement itself Moderate human enhancement meets the requirement of truly human enhancement By radically enhancing human cognitive capabilities by contrast we may inadvertently create beings post persons with moral status higher than that of persons If we create beings more entitled to benefits and protections against harms than persons Agar writes this will be bad news for the unenhanced Moderate human enhancement offers a more appealing vision of the future

and of our relationship to technology Life on the Cutting Edge Sal Rachele,2019-10-18 Are you tired of the same old stuff S O S Have you heard enough about the New Age Do you long for something fresh and exciting Then perhaps this book is for you It s not about the same old tired reality that s been talked about for decades It s not a sugar coated love and light routine And it s not another feel good manual or how to succeed without really trying rehash It s not psycho babble quick fix therapy preaching or lamenting a cause This book takes a no nonsense look at what is really happening behind the scenes above the scenes and beyond the scenes It addresses the issues you and I are facing right now and will be facing for a long time to come It uses the past only as a springboard for stepping into the unknown into the big picture It exposes the lies coverups deceit control and manipulation that have kept the people of Earth locked into rigid systems of dogma and despair But it also offers real solutions that are timely and yet timeless It gives you ideas that can help you put the pieces of the cosmic jigsaw together And practical advice that can stimulate your creative juices Get out your surfboard and ride the cutting edge
