Reception Of William Beaumonts Discovery:

The Reception of William Beaumont's Discovery in Europe George Rosen, 1942 **Frontier Doctor** Reginald Horsman, 1996 Reginald Horsman provides the first modern scholarly biography of a colorful backwoods doctor William Beaumont whose pioneering research on human digestion gained him international renown as a physiologist Discovering the History of Psychiatry Mark S. Micale, Roy Porter, 1994 This book brings together leading international authorities physicians historians social scientists and others who explore the many complex interpretive and ideological dimensions of historical writing about psychiatry The book includes chapters on the history of the asylum Freud anti psychiatry in the United States and abroad feminist interpretations of psychiatry s past and historical accounts of Nazism and psychotherapy as well as discussions of many individual historical figures and movements It represents the first attempt to study comprehensively the multiple mythologies that have grown up around the history of madness and the origin functions and validity of these myths in our psychological century Great Scientists Speak Again Richard M. Eakin, 2024-03-29 The author writes of this book What lead you to impersonate great biologists is a question often asked of me My answer varies depending upon the interviewer Sometimes I cite my interest in biographies of distinguished scientists initiated by a reading of Vallery Radot s *The Life of Pasteur* as a teenage and furthered by a superb college course on the history of biology Another answer my love of the theater more from the balcony than on the stage as a ham actor My most frequent reply however credits this instructional innovation to the students in my Berkeley course in general biology Zoology 10 who began to show in the late sixties their dissatisfaction with the lecture system I gave serious thought to the problem of communicating biological information with greater impact One morning in the shower I was stuck not only by the spray but also by an idea dress up and make up as some of the great biologists and present their discoveries and thoughts in their own words In addition to expounding their scientific work portray them as persons with hopes and ambitions frustration over failure and joy from success I chose Darwin Mendel Harvey and Pasteur who would probably be on the most lists of great biologists and two lesser known scientists William Beaumont pre Civil War Army surgeon who studied gastic digestion in the stomach of a fur trapper Alexis St Martin and Hans Spemann 1935 Nobel Laureate in Physiology and Medicine who discovered the organizer principle in embryonic development The results of the innovation which I call guest lecturers were gratifying Late five of the lectures in abbreviated form were recorded on motion picture film available through the Media Center of the University of California Berkeley Then it was suggested that a much wider audience should be reached through publication of the lectures in book form illustrated with photographs of the guest lecturers in action and with drawings charts maps and reproductions of lantern slides This title is part of UC Press s *Voices Revived* program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 *Voices Revived* makes high quality peer reviewed scholarship accessible once again using print on

demand technology This title was originally published in 1975 **The Reception of William Beaumont's Discovery in Europe. With a Foreword by John F. Fulton** George Rosen,1942 *Literatim* Howard Markel,2020 In 1959 shortly before his death and while reflecting over his roller coaster career as a Hollywood film director Preston Sturges who I write about more fully later in this book remarked the only amazing thing about my career is that I ever had one at all 1 The same might be said about my career as a physician and historian of medicine As a young boy some of my best companions were the characters I met on the pages of novels stories theatrical scripts and screenplays Fascinated by human stories contradictions both moral and physical and worlds so vastly different from my middle class suburban Detroit upbringing I was inspired to I try my hand at writing some of my own tales In my teens I was an active participant in my high school s theatre program thankfully in an era when taxpayers still supported the arts as a critical part of the public school curriculum and wrote a series of incredibly bad plays Soon enough I was confronted by the decidedly difficult time I had in coming up with believable plots a serious handicap for any budding fabulist
