River Dog A Journey Along The Brahmaputra:

River Dog Mark Shand, 2003 The Brahmaputra is one of the world's great rivers Beginning as a tiny glacial stream in Western Tibet it flows through India and Bangladesh before gushing out into the Bay of Bengal Unable to reach the northern part of the river due to Chinese intransigence Mark Shand nonetheless set out to attempt what no foreigner had ever done complete the huge journey from the unexplored jungles of the Indo Tibet border to the largest river delta in the world RIVER DOG is a chronicle of that journey a remarkable story encompassing sublime landscapes in Assam where the River begins to broaden into its full majesty and rather odd encounters including a bizarre group of identical looking monks in Majuli the largest river island in the world But it is also a celebration of a river that flows with mystery and legend the men who have set out to discover it and a rather charming canine travelling companion called Bhaiti Travelers' Tales India James O'Reilly, Larry Habegger, 2009-11-01 India is among the most difficult and most rewarding of places to travel Some have said India stands for I'll Never Do It Again Many more are drawn back time after time because India is the best show on earth the best bazaar of human experiences that can be visited in a lifetime India dissolves ideas about what it means to be alive and its people give new meaning to compassion perseverance ingenuity and friendship India monsoon and marigold dung and dust colors and corpses smoke and ash snow and endless myth is a cruel unrelenting place of ineffable sweetness Much like life itself Journey to the Kumbh Mela in Allahabad the world's biggest party with David Yeadon and take A Bath for Fifteen Million People greet the monsoon with Alexander Frater where the Indian and Pacific Oceans meet track the endangered Indian One Horned Rhinoceros through the jungles of Assam with Larry Habegger encounter the anguish of the caste system with Steve Coll discover the eternal power of the monument of love the Taj Mahal with Jonah Blank and much more

Capital and Ecology Rakhee Bhattacharya, G. Amarjit Sharma, 2023-08-28 This volume studies the intersection of capital and ecology primarily in one of the most sensitive geographies of the world the Eastern Himalayan region It looks at how the region has become a melting ground of neoliberal developmentalism and ecological subjectivities with the penetrating forces of global and state capitalism economic projects and complex power relations The essays in the volume argue that specific focus on energy infrastructure and energy production has pushed technology and capital towards asset building which has had an adverse effect on the environment labour relations indigenous knowledge systems and traditional livelihood practices in the area They look at assets like mega dams electricity transmission networks natural gas grids infrastructural and developmental projects and other alternative ventures which require interventions in the natural world and its resource deposits Interdisciplinary in approach the volume adopts a variety of lenses developmentalism state strategy indigenous voices geopolitics and environmentalism to provide a unique and alternative narrative on the various dimensions of the ecological risks and livelihood threats It will be of great interest to scholars and researchers of politics development studies indigenous studies and Asian studies The Literary Review, 2002 *Land of the Dawn-lit Mountains* Antonia

Maharanis Lucy Moore,2006-06-27 Until the 1920s to be a Maharani wife to the Maharajah was to be tantalizingly close to the power and glamour of the Raj but locked away in purdah as near chattel Even the educated progressive Maharani of Baroda Chimnabai born into the aftermath of the 1857 Indian Mutiny began her marriage this way but her ravishing daughter Indira had other ideas She became the Regent of Cooch Behar one of the wealthiest regions of India while her daughter Ayesha was elected to the Indian Parliament The lives of these influential women embodied the delicate interplay between rulers and ruled race and culture subservience and independence Eastern and Western ideas and ancient and modern ways of life in the bejeweled exuberance of Indian aristocratic life in the final days both of the Raj and the British Empire Tracing these larger than life characters as they bust every known stereotype Lucy Moore creates a vivid picture of an emerging modern democratic society in India and the tumultuous period of Imperialism from which it arose Through the sumptuous adventurous lives of three generations of Indian queens from the period following the Indian Mutiny of 1857 to the present Lucy Moore traces the cultural and political changes that transformed their world

A Journey in the Future of Water Terje Tvedt,2013-10-25 Nourished by fears of global warming and climate change water has become an issue of urgent international concern Is flooding across Europe and Asia a warning of more extreme weather conditions in times to come Will rising sea levels threaten some of the most densely populated regions of the Earth And as the world population approaches 7 billion placing

increasing demands on our limited global water supply will there be conflict over access to water Fundamental questions about the future of humanity are being asked and for the first time in history they have to do with the role of water and our ability to control it In *A Journey in the Future of Water* leading water expert Terje Tvedt explores the impact of our growing water concerns In a journey that takes him to more than twenty five countries and across all continents he talks with water experts politicians and local people to find out more about the ways in which different nations are seeking to respond From Project Moses where gigantic underwater gates will rise to prevent the inundation of Venice to India's River Link Plan connecting thirty seven Himalayan rivers to rivers in the south the author has examined some of the world's largest engineering projects travelled the great river valleys explored the rain soaked coasts of Scandinavia and the rain starved deserts of the Sahara and Oman From Las Vegas to Lourdes from Norway to the Nile he has taken part in water festivals and rituals in Africa and India travelled to poor nomadic societies and some of the largest cities in the world in order to better understand this most precious of resources and its determining role in the life of the planet The result is both one of the most comprehensive and accessible accounts of current and future global water issues and a celebration of water itself The World Water Crisis Stephen Brichieri-Colombi, 2008-10-30 In the last decade water resources planners have frequently signalled an impending water crisis The message is that the world is running out of water and that only by careful planning and the adoption of integrated water resources management can catastrophe be avoided Stephen Brichieri Colombi challenges these perceptions He maintains that the crisis is one of resource management rather than availability it arises because water resource planners advocate exploitation of rivers without due regard to social environmental and geopolitical consequences The author advances a new paradigm water in the national economy which will enable developing countries to meet future food and water demands without increasing abstraction from rivers and consequential riparian conflict This is a powerful re appraisal of the development of global water resources *Trans-Himalaya* Sven Anders Hedin, 1909 Outlook, 2002
