Rivers Of The Heart:

Dark Rivers of the Heart Dean Koontz, 2007-06-29 BONUS This edition contains an excerpt from Dean Koontz's *The City* A man and a woman meet by chance in a bar Suddenly they are fleeing the long arm of a clandestine and increasingly powerful renegade government agency the woman hunted for the information she possesses the man mistaken as her comrade in a burgeoning resistance movement The architect of the chase is a man of uncommon madness and cruelty ruthless possibly psychotic and equipped with a vast technological arsenal He is the brazen face of an insidiously fascistic future And he is virtually unstoppable But he has never before come up against the likes of his current quarry Both of them are survivors of singularly horrific pasts Both have long been emboldened by their experiences to fight with reckless courage for their own freedom Now they are plunged into a struggle for the freedom of their country and for the sanctity of their own lives *Dark Rivers of the Heart* is an electrifying thriller that steers us along the razor edge of a familiar terrifying reality

DARK RIVERS OF THE HEART. DEAN. KOONTZ, 2016 Spencer Grant is physically and emotionally scarred An outsider he often sits for hours in bars just to avoid being alone and to tell his story to someone who won't remember it the next morning But last night he met Valerie and something about her melted his isolation Then she doesn't turn up for work and he finds her home abandoned with a strange message fixed to the wall Before he has time to wonder who or what Valerie is the house is hit by an explosion Spencer escapes only to find himself on the run not only from his past but also from the conspiracy he has unwittingly stumbled on **The Heart of America** Tim Palmer, 1999-09 From the cliffs of Big Sur to the dunes at Cape Hatteras from the bogs of the Boundary Waters to the deserts of the Rio Grande the landscape of America has shaped us into the people we are Not only is it central to ecological health and essential to the economy it has helped form our culture and serves as a basis of national pride The heart of America lies in the rock and soil the mountains and the plains that surround us In this illuminating portrait of America at the threshold of the new millennium author Tim Palmer explores and assesses the landscape of the United States both timeless wonders of natural beauty and lost places scarred by human exploitation He takes the reader on an informative and inspirational tour of our most vital landscapes including mountains forests grasslands deserts rivers lakes wetlands and seashores He introduces us to the basic geography and ecological value of each landscape describes historical patterns of land use considers the most serious threats and discusses what is being done to protect the landscape for future generations Throughout he instills a deeper understanding of the importance of the land a sense of outrage at the damage that has been done and a feeling of hope that those working to correct past abuses will succeed Weaving together geographical historical and ecological information and insights Palmer draws on thirty years of professional experience as a writer photographer conservationist planner landscape architect and veteran traveler to present a fresh look at the past present and future of our land Resounding in its account of these landscapes compelling in the force
