Journal of the American Musicological Society American Musicological Society, 1997 Liber amicorum Isabelle Cazeaux Paul-André Bempéchat, 2003 Table of contents *The Media of Secular Music in the Medieval and Early Modern Period (1100-1650)* Vincenzo Borghetti, Alexandros Maria Hatzikiriakos, 2024-05-09 This book brings a new perspective to secular music sources from the Middle Ages and early modernity by viewing them as media communication tools whose particular features shape the meaning of their contents Ranging from the eleventh to seventeenth centuries and across countries and genres the chapters offer innovative insights into the historical relationship between music and its presentation in a wide variety of media The lens of media enables contributors to expand music history beyond notated music manuscripts and instruments to include images furniture luxury items and other objects and to address uniquely visual and material aspects of music sources in books and literature Drawing together an international group of contributors the volume pays close attention to the medial and material dimensions of musical sources considering them as multifaceted objects that not only contain but also determine the nature of the music they transmit Transforming our understanding of musical media this volume will be of interest to scholars of musicology art history and medieval and early modern cultures *The Church Music of Davide Perez and Niccolò Jommelli* Maurício Dottori, 2008 Holy Treasure and Sacred Song Benjamin David Brand, 2014 Holy Treasure and Sacred Song explores the complex interplay between relic cults and the liturgy in medieval Tuscany Drawing on documentary literary and visual evidence rarely considered together it reveals that liturgical texts music and ritual were integral to the clergy's well informed promotion of saints buried in their churches *Gothic Song* Margot Elsbeth Fassler, 1993-08-19 This is the first study of how a particular genre of liturgical texts and music the Victorine sequences were first written in great numbers during the twelfth century **Leib Glantz, the Man who Spoke to God** Jerry Glantz, 2008 About the life and work of cantor Leib Glantz *Bolognese Instrumental Music, 1660-1710* Gregory Barnett, 2017-07-05 This book the first of its kind is a study of Bolognese instrumental music during the height of the city's musical activity in the late seventeenth century The period marked by a rapid expansion of the cappella musicale of the principal city church San Petronio by the founding of the Accademia Filarmonica and by increasingly lavish patronage of musical events witnessed the proliferation of repertory for instrumental ensembles This music not only reveals crucial stages in the development of the sonata and concerto but also recalls the elaborate church rituals and the opulent public and private celebrations in which they figured prominently Moreover the late seventeenth century saw the heyday of Bolognese music publishing whose output of sonatas and related instrumental genres easily surpassed that of the once dominating Venetian presses The approach taken here departs from composer and genre centered monographs on Italian instrumental music in order to illuminate an array of topics that center on the Bolognese repertory the social condition of instrumentalist composers the acumen of music publishers in the creation of the repertory the diverse contexts of the instrumental dances

the influence of liturgical traditions on sonata topoi the impact of psalmodic practice on tonal style and the innovative climate that led to experiments with scoring and form in the earliest instrumental concertos In sum this book not only illustrates the historically significant and defining features of the music but also links the surviving repertory to the flourishing musical culture in which it was created Fontes Artis Musicae ,1980 **The British Library General Catalogue of Printed Books to 1975** British Library,1984
