Road Race Round The World New York To Paris 1908:

Road Race Round the World Robert B. Jackson, 1965 Text and illustrations highlight the 1908 automobile race from New York City to Paris Road Race Round the World Robert Blake Jackson, 1977-01-01 Text and illustrations highlight the 1908 automobile race from New York City to Paris **Race of the Century** Julie M. Fenster, 2005-06-14 On the morning of February 12 1908 six cars from four different countries lined up in the swirling snow of Times Square surrounded by a frenzied crowd of 250 000 The seventeen men who started the New York to Paris auto race were an international roster of personalities a charismatic Norwegian outdoorsman a witty French count a pair of Italian sophisticates an aristocratic German army officer and a cranky mechanic from Buffalo New York President Theodore Roosevelt congratulated them by saying I like people who do something not the good safe man who stays at home These men were doing something no man had ever done before and their journey would take them very far from home Their course was calculated at more than 21 000 miles across three continents and six countries It would cross over mountain ranges some as high as 10 000 feet and through Arctic freeze and desert heat from drifting snow to blowing sand Bridgeless rivers and seas of mud blocked the way while wolves bears and bandits stalked vast lonely expanses of the route And there were no gas stations no garages and no replacement parts available The automobile after all had been sold commercially for only fifteen years Many people along the route had never even seen one Among the heroes of the race were two men who ultimately transcended the others in tenacity skill and leadership Ober lieutenant Hans Koeppen a rising officer in the Prussian army led the German team in their canvas topped 40 horsepower Protos His amiable personality belied a core of sheer determination and by the race s end he had won the respect of even his toughest critics His counterpart on the U S team was George Schuster a blue collar mechanic and son of German immigrants who led the Americans in their lightweight 60 horsepower Thomas Flyer A born competitor Schuster joined the U S team as an undistinguished workman but he would battle Koeppen until the very end Ultimately the German and the American would be left alone in the race fighting the elements exhaustion and each other until the winning car s glorious entrance into Paris on July 30 1908 Lincoln s Birthday February 12 1908 The crowds gathering on Broadway all morning were not out to honor Abe Lincoln either They were on the avenue to catch sight of the start of the New York to Paris Automobile Race There would only be one one race round the world one start and one particular way that for the people who lived through it the world would never be the same The automobile was about to take it all on not just Broadway but the farthest reaches to which it could lead On that absurdity the auto was about to come of age By ten o clock reported the Tribune Broadway up to the northernmost reaches of Harlem looked as though everybody was expecting the circus to come to town The excitement was generated by the potential of the auto to overcome the three challenges most frustrating to the twentieth century distance nature and technology First distance in the form of twenty two thousand miles of the Northern Hemisphere from New York west to Paris Second nature in seasons at their most unyielding And third the very machinery

itself which would be pressed hard by the race to defeat itself Barely twenty years old as a contraption and only ten as a practical conveyance the automobile couldn't reasonably be expected to be ready to take on the world But there were men who were ready and that was what mattered From *Race of the Century* Julie M. Fenster,2006-06-27 Capturing the determination and thrill of an era when technology made anything seem possible this work tells the story of the death defying New York to Paris Auto Race held in 1908 Photos Hard Driving Dermot Cole,2020-06-15 In the winter of 1908 six cars left Times Square bound for Paris They were embarking on a remarkable motor race across the world that would capture everyone's imagination In this book Dermot Cole weaves a thrilling account of the improbable journey west from New York to Paris the varied characters and the nascent automobile industry Drawing from the drivers journals and extensive newspaper reports Cole details the many hardships triangulations and physical extremes encountered along the route as the drivers attempted to race from coast to coast cross the Bering Strait to Russia traverse Siberia and onward *Hard Driving* delves beyond the riveting headlines to explore the race's implications for global politics and diplomacy and how the automobile became a viable mode of transportation **The Automobile and American Life, 2d ed.** John Heitmann,2018-08-03 Now revised and updated this book tells the story of how the automobile transformed American life and how automotive design and technology have changed over time It details cars inception as a mechanical curiosity and later a plaything for the wealthy racing and the promotion of the industry Henry Ford and the advent of mass production market competition during the 1920s the development of roads and accompanying highway culture the effects of the Great Depression and World War II the automotive Golden Age of the 1950s oil crises and the turbulent 1970s the decline and then resurgence of the Big Three and how American car culture has been represented in film music and literature Updated notes and a select bibliography serve as valuable resources to those interested in automotive history **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office,1978 Hard Driving Dermot Cole,2020-05-15 In the winter of 1908 six cars left Times Square bound for Paris They were embarking on a remarkable motor race across the world that would capture everyone's imagination In this book Dermot Cole weaves a thrilling account of the improbable journey west from New York to Paris the varied characters and the nascent automobile industry Drawing from the drivers journals and extensive newspaper reports Cole details the many hardships triangulations and physical extremes encountered along the route as the drivers attempted to race from coast to coast cross the Bering Strait to Russia traverse Siberia and onward *Hard Driving* delves beyond the riveting headlines to explore the race's implications for global politics and diplomacy and how the automobile became a viable mode of transportation The American Cyclopedia of the Automobile Thomas Herbert Russell,Charles P. Root,1909 The Record-Setting Trips Curt McConnell,2003 A richly illustrated history of the first cross country auto trips exposes the role of these well publicized jaunts in changing the way the public felt about this new technology Transportation

web compressor capacity is volume of compressed air flow upon a particular given time and is expressed in m^3/hour or l/min various compressor types vary in capacity to specify particular application of compressor equipment amount of inlet air consumed upon a particular given time prior to compression is also considered a unit capacity
