

"Convincing . . . Currie's argument is just about airtight."
—Jonathan Yardley, *The Washington Post*

A row of young people, likely students, are leaning on a concrete wall, looking out over a body of water. They are wearing winter clothing, including hats and jackets. The background is a blurred view of a beach and the ocean.

Road To Whatever Middle Class Culture And The Crisis Of Adolescence:

The Road to Whatever Elliott Currie, 2005-02 Sample Text **Road to Whatever** Elliott Currie, 2005 The Road to Whatever Elliott Currie, 2024-03-26 From the Pulitzer Prize finalist a sharp and compassionate investigation of the root causes of the epidemic of drug abuse violence and despair among mainstream American teenagers In the past few years it has become painfully clear that all is not well with the children of middle class America Beyond the shootings at Columbine hardly a day goes by without stories of drug use binge drinking fatal accidents and senseless suicides among middle class adolescents But the why of these tragedies has eluded us In this groundbreaking book acclaimed sociologist and Pulitzer Prize finalist Elliott Currie rejects such predictable answers as TV violence permissiveness and inherent evil Instead drawing on years of interviews he links this crisis to a pervasive culture of exclusion that has left young people facing an ever more unforgiving world Currie describes a society in which severe punishment and zero tolerance of adolescent misbehavior have become the norm where tough love and medications have replaced engagement and guidance Broadening his inquiry he dissects the changes in middle class life that have enforced newly rigid divides between winners and losers and imposed an extraordinarily harsh culture and not just on kids Vivid compelling and deeply empathetic The Road to Whatever is a profound investigation of what has gone wrong for so many American teenagers and a stark indictment of a society that has lost the will or the capacity to care

The Rich Get Richer and the Poor Get Prison Jeffrey Reiman, Paul Leighton, 2023-04-28 For 40 years this classic text has taken the issue of economic inequality seriously and asked Why are our prisons filled with the poor Why aren't the tools of the criminal justice system being used to protect Americans from predatory business practices and to punish well off people who cause widespread harm This new edition continues to engage readers in important exercises of critical thinking Why has the U S relied so heavily on tough crime policies despite evidence of their limited effectiveness and how much of the decline in crime rates can be attributed to them Why does the U S have such a high crime rate compared to other developed nations and what could we do about it Are the morally blameworthy harms of the rich and poor equally translated into criminal laws that protect the public from harms on the streets and harms from the suites How much class bias is present in the criminal justice system both when the rich and poor engage in the same act and when the rich use their leadership of corporations to perpetrate mass victimization The Rich Get Richer the Poor Get Prison shows readers that much of what goes on in the criminal justice system violates citizens sense of basic fairness It presents extensive evidence from mainstream data that the criminal justice system does not function in the way it says it does nor in the way that readers believe it should The authors develop a theoretical perspective from which readers might understand these failures and evaluate them morally and they do it in a short text written in plain language Readers who are not convinced about the larger theoretical perspective will still have engaged in extensive critical thinking to identify their own taken for granted assumptions about crime and criminal justice as well as uncover the effects of power on social

practices This engagement helps readers develop their own worldview New to this edition Presents recent data comparing the harms due to criminal activity with the harms of dangerous but not criminal corporate actions Updates research on class discrimination at every stage of the criminal justice system Updates statistics on crime victimization incarceration and wealth Increased material for thinking critically about criminal justice and criminology New material on global warming and why Black Lives Matter protests did not cause increases in crime in 2020 Expanded discussion of marijuana and drug legalization Stronger chapter overviews clearer chapter structure and expanded review questions Streamlined and condensed prose for greater clarity

The Teacher's Attention Garrett Delavan, 2009-04-27 The Teacher's Attention is a fresh take on relationships in schools Looking beyond our obsession with raising test scores this book recognizes that education is a key partner in raising children Garrett Delavan contends that allowing students educators and parents to navigate a smaller number of relationships a concept he calls relationship load provides many benefits including a better chance at achieving equal access to a good education for all children Delavan shows how class size school size and longer term student teacher relationships are all equally critical components for educating our children ethically and successfully After examining these proposed reforms in detail Delavan also considers counterarguments and provides a detailed projection of costs and savings putting to rest the assumption that smaller classes and smaller schools are necessarily more expensive Finally the book discusses possible steps toward implementation showing how the author's proposed reforms are remarkably practical

Policing: Toward an Unknown Future John Crank, Colleen Kadleck, 2013-12-16 The

enclosed papers are the culmination of a project Dr John Crank and Dr Colleen Kadleck carried out assessing issues facing the police into the early 21st century The papers are future oriented in the sense that they anticipate trends visible today Everywhere the contributing scholars found that the organizational concept practice and function of the police were undergoing transition Yet the seeming state level hardening of the police function was ubiquitous Two themes were noteworthy On the one hand in developing or second world countries police face endemic problems of corruption organized crime and drugs Police in response are undergoing centralization and intensification of law enforcement activities In countries with first world economies Canada the United States and Australia contributors discovered trends toward expansion of the police function a trend described by Brodeur as toward high policing It reflects the growing reliance on surveillance for crime control and for the tracking of minority indigenous and immigrant populations in crime prevention efforts The results suggest that governments sometimes encouraged by their citizenry seem increasingly to rely on the police to deal with a broad array of social as well as criminal problems This book was originally published as a special issue of *Police Practice and Research* Encyclopedia of Criminological Theory Francis T. Cullen, Pamela Wilcox, 2010-09-23 Consistently excellent The level and coverage of the content make this an invaluable reference for students studying criminology or taking criminal psychology modules at degree level and beyond Adam Tocock Reference Reviews In discussing a criminology topic lecturers and course textbooks often toss out names of theorists or make a sideways reference to a particular theory and move on as if assuming their student audience possesses the necessary background to appreciate and integrate the reference However university reference librarians can tell you this is often far from the case Students often approach them seeking a source to provide a quick overview of a particular theory or theorist with just the basics the who what where how and why if you will And reference librarians often find it difficult to guide these students to a quick one stop source In response SAGE Reference is publishing the two volume *Encyclopedia of Criminological Theory* available in both print and electronic formats This serves as a reference source for anyone interested in the roots of contemporary criminological theory Drawing together a team of international scholars it examines the global landscape of all the key theories and the theorists behind them presenting them in the context needed to understand their strengths and weaknesses In addition to interpretations of long established theories it also offers essays on cutting edge research as one might find in a handbook And like an unabridged dictionary it provides concise to the point definitions of key concepts ideas schools and figures Coverage will include contexts and concepts in criminological theory the social construction of crime policy implications of theory diversity and intercultural contexts conflict theory rational choice theories conservative criminology feminist theory **Social Participation in Occupational Contexts** Marilyn B. Cole, Mary V. Donohue, 2011 Social participation naturally occurs in everyday life in combination with daily occupations such as when people interact while eating playing carpooling and working This book provides information on social participation for different occupations
