Land Between the Rivers

Bartle Bull, 2024-09-10 The epic five millennia history of the region between the Tigris and Euphrates Rivers that was the birthplace of civilization and remains today the essential crossroads between East and West At the start of the fourth millennium BC at the edge of historical time civilization first arrived with the advent of cities and the invention of writing that began to replace legend with history This occurred on the floodplains of southern Iraq where the great rivers Tigris and Euphrates meet the Persian Gulf By 3000 BC a city called Uruk from which Iraq is derived had 80 000 residents Indeed as Bartle Bull reveals in his magisterial history if one divides the 5 000 years of human civilization into ten periods of five centuries each during the first nine of these the world's leading city was in one of the three regions of current day Iraq or to use its Greek name Mesopotamia Inspired by extensive reporting from the region to spend a decade delving deep into its history Bull chronicles the story of Iraq from the exploits of Gilgamesh almost certainly an historical figure to the fall of the Iraqi monarchy in 1958 that ushered in its familiar modern era The land between the rivers has been the melting pot and battleground of countless outsiders from the Akkadians of Hammurabi and the Greeks of Alexander to the Ottomans of Suleiman the Magnificent Here by the waters of Babylon Judaism was born and the Sunni Shia schism took its bloody shape Central themes play out over the millennia humanity's need for freedom versus the co eternal urge of tyranny the ever present conflict and cross fertilization of East and West with Iraq so often the hinge We tend to view today's tensions in the Middle East through the prism of the last hundred years since the Treaty of Versailles imposed a controversial realignment of its borders Bartle Bull's remarkable sweeping achievement reminds us that the region defined by the land between the rivers has for five millennia played a uniquely central role on the global stage

The Mesopotamian Riddle Joshua

Hammer, 2025-03-18 As early as 3500 BCE scribes in the mud walled city state of Sumer used a reed stylus to press tiny wedge shaped symbols into clay For three thousand years the script chronicled the military conquests scientific discoveries and epic literature of the grand kingdoms of Mesopotamia Assyria Babylon the mighty Achaemenid Empire along with precious minutia about every day life so long ago But as the palaces of these once great kingdoms sank beneath the desert sands the meaning of these characters was lost London 1857 Colossal sculpture of winged bulls and alabaster bas reliefs depicting cities under siege and vassals bearing tributes to Biblical kings lined the halls of the British Museum In the Victorian era's obsession with the triumphs of human progress the mysterious kingdoms of ancient Mesopotamia the very cradle of civilization had captured the public imagination Yet Europe's best philologists struggled to decipher the strange characters Cuneiform seemed to have thousands of symbols with some scholars claiming each could be pronounced in up to eight nine even ten different ways Others insisted they'd cracked the code and deciphered inscriptions that corresponded precisely to the Old Testament proving the veracity of the Word of God Was it all a hoax A delusion A rollicking adventure

through the holden age of archaeology this book tracks the decades long race to decipher the oldest script in the world It s the story of a swashbuckling young archaeologist a suave British military officer and a curmudgeonly Irish rector all vying for glory from the ruins of Persepolis to the opulence of Ottoman era Baghdad in a quest to unearth the relics of lost civilizations and unlock the secrets of humanity s past The Monuments of Nineveh. From Drawings Made on the Spot by Austen Henry Layard, Esq., D.C.L. Illustrated in One Hundred Plates Sir Austen Henry Layard, University of St. Andrews. Library. Reserve Collection, 1849 *Reforging a Forgotten History* Sargon Donabed, 2015-02-27 Traces the dynamic history of Iraq in the 20th century and reinserts the modern remnants of these peoples into its day to day concerns **From Archaeology to Spectacle in Victorian Britain** Shawn Malley, 2016-04-15 In his examination of the excavation of ancient Assyria by Austen Henry Layard Shawn Malley reveals how by whom and for what reasons the stones of Assyria were deployed during a brief but remarkably intense period of archaeological activity in the mid nineteenth century His book encompasses the archaeological practices and representations that originated in Layard s excavations radiated outward by way of the British Museum and Layard s best selling *Nineveh and Its Remains* 1849 and were then dispersed into the public domain of popular amusements That the stones of Assyria resonated in debates far beyond the interests of religious and scientific groups is apparent in the prevalence of poetry exhibitions plays and dioramas inspired by the excavation Of particular note correspondence involving high ranking diplomatic personnel and museum officials demonstrates that the treasures brought home to fill the British Museum served not only as signs of symbolic conquest but also as covert means for extending Britain s political and economic influence in the Near East Malley takes up issues of class and influence to show how the middle class Layard s celebrity status both advanced and threatened aristocratic values Tellingly the excavations prompted disturbing questions about the perils of imperial rule that framed discussions of the social and political conditions which brought England to the brink of revolution in 1848 and resurfaced with a vengeance during the Crimean crisis In the provocative conclusion of this meticulously documented and suggestive book Malley points toward the striking parallels between the history of Britain s imperial investment in Mesopotamia and the contemporary geopolitical uses and abuses of Assyrian antiquity in post invasion Iraq **The Amateur and the Professional** P. J. A. Levine, Philippa Levine, 2003-02-13 This book highlights the growing divide in nineteenth century intellectual circles between amateur and professional interest and explores the institutional means whereby professional ascendancy was achieved in the broad field of studies of the past It is concerned with how antiquarian gentlemen of leisure pursuing their interests through local archaeological societies were by the end of the century relegated to the sidelines of the now university based discipline of history At the same time it explores the theological as well as technical barriers which arrested the development of archaeology in this period This is a notable contribution to the intellectual history of Victorian England attending not simply to the ideas perpetrated by these communities of scholarship but to their social status relating such social consideration to a more traditional intellectual

history to create a new social history of ideas *Handbook to Life in Ancient Mesopotamia* Stephen Bertman, 2005-07-14
Modern day archaeological discoveries in the Near East continue to illuminate man's understanding of the ancient world This illustrated handbook describes the culture history and people of Mesopotamia as well as their struggle for survival and happiness **Gods, Graves & Scholars** C.W. Ceram, 2012-01-18 C W Ceram visualized archeology as a wonderful combination of high adventure romance history and scholarship and this book a chronicle of man's search for his past reads like a dramatic narrative We travel with Heinrich Schliemann as defying the ridicule of the learned world he actually unearths the remains of the ancient city of Troy We share the excitement of Lord Carnarvon and Howard Carter as they first glimpse the riches of Tutankhamen's tomb of George Smith when he found the ancient clay tablets that contained the records of the Biblical Flood We rediscover the ruined splendors of the Hanging Gardens of Babylon one of the wonders of the ancient world of Chichen Itza the abandoned pyramids of the Maya and the legendary Labyrinth of the Minotaur in Crete Here is much of the history of civilization and the stories of the men who rediscovered it Illustrated with drawings maps and photographs
