Faulder,2024-12-30 This book presents an original study of the work of Pritzker Prize winning Portuguese architect Ivaro Siza from the perspective of architecture as an interpretation of human life It combines philosophical hermeneutics narrative textual description and history and theory research to provide a rich account of Siza s work The book gives a detailed analysis of three of Siza s works from this perspective the Tidal Pool Piscina das Mar s in Le a da Palmeira Portugal the Galician Centre of

Contemporary Art Centro Galego de Arte Contemporánea in Santiago de Compostela Spain and the Santa Maria Church in Marco de Canaveses Portugal This form of analysis provides insight into the unique temporal dimension of Siza's work both in the memory inscribed by the structure and in how what is inscribed is revealed by degrees to those who come into contact with it Drawing on Hans Georg Gadamer and Paul Ricoeur this book defines both building and inhabiting as acts of interpretation Through employing the technique of writing architecture as a mode of phenomenological description the book uses one form of creative configuration narrative to draw out the meaning inscribed in another form of creative configuration architecture The book contributes a unique perspective to scholarship on Siza and an in depth study to the growing field of hermeneutics of architecture It will be of interest to researchers and students of architecture and philosophy
