Isaiah in Context Michaël van der Meer, Percy van Keulen, Willem Th. van Peursen, Bas Ter Haar Romeny, 2010-05-31 The present volume contains a collection of essays on the Book of Isaiah offered as a tribute to Arie van der Kooij on the occasion of his sixty fifth birthday which coincides with his retirement as Professor of Old Testament at Leiden University The twenty four contributions written by leading scholars in the field of Old Testament studies focus on the Book of Isaiah within the context of Hebrew and ancient near eastern writings particularly those from the Neo Assyrian period as well as on the book s reception history particularly in its Greek and Syriac translations Together these studies offer a rich and original contribution to the study of the Book of Isaiah in its Hebrew Aramaic Assyrian Greek Syriac and Dutch contexts

Migration and the Making of Global Christianity Jehu J. Hanciles, 2021-03-16 A magisterial sweep through 1500 years of Christian history with a groundbreaking focus on the missionary role of migrants in its spread Human migration has long been identified as a driving force of historical change Building on this understanding Jehu Hanciles surveys the history of Christianity s global expansion from its origins through 1500 CE to show how migration more than official missionary activity or imperial designs played a vital role in making Christianity the world s largest religion Church history has tended to place a premium on political power and institutional forms thus portraying Christianity as a religion disseminated through official representatives of church and state But as Hanciles illustrates this top down perspective overlooks the multifarious array of social movements cultural processes ordinary experiences and non elite activities and decisions that contribute immensely to religious encounter and exchange Hanciles s socio historical approach to understanding the growth of Christianity as a world religion disrupts the narrative of Western preeminence while honoring and making sense of the diversity of religious expression that has characterized the world Christian movement for two millennia In turning the focus of the story away from powerful empires and heroic missionaries *Migration and the Making of Global Christianity* instead tells the more truthful story of how every Christian migrant is a vessel for the spread of the Christian faith in our deeply interconnected world
