Rediscovering the Golden State William A. Selby,2018-09-19 Now in its fourth edition Rediscovering the Golden State California Geography examines this unique state s incredibly diverse landscapes and how geography and geographic change influences everything from the state s natural systems and cycles to its agriculture and more advanced industries to human migration cultures and urban planning Exploring California through a geographic lens reveals how the field has evolved to cross traditional boundaries connect local and global issues and provide the insights that lead to practical solutions to problems new and old Challenging the reader to look beyond stereotypes and assumptions this book encourages active

participation in planning the state's dynamic future. And this project makes teaching and learning about the geography of California more convenient, exciting, and rewarding for instructors and students. Going beyond a scientific analysis of natural features and environmental processes, this book illustrates how social, political, and economic divides can be bridged through the study of geography and the connections it brings to light. From geology, weather, and climate, biogeography, and hydrology, we cover the state's physical geography. And from demography and migration to cultures and economies, to rural and urban geography, we monitor the state's human geography pulse and then make the vital connections. California continues to lead the nation in population, economics, 5th largest in the world, agriculture, natural and cultural diversity, and a host of other categories. This powerful state has earned this powerful publication. This timely and versatile book will prove useful to Californians in business, education, government, and to concerned citizens and curious readers seeking to learn more about the Golden State.

Our Union Soldier's Four Wars 1840-1863 David William Olien, 2013-07-19. What began as an attempt to learn about the service of a family ancestor lost in the Civil War became an exciting journey following him through two decades and a half of some of the most critical years in America's history. Irish Immigrant Peter Gregory Curry was one of the few soldiers who served his country in one of the Florida Seminole Wars, the Mexican War, Gold Rush California, and finally the Civil War. His family had no memory or record of his extraordinary life of adventure, which included hard Federal military service in the 1840s, Florida front-line combat in the Mexican War, being shot in the shoulder in a battle with California Indians during the Gold Rush, homesteading in frontier Illinois, and finally dying as a Union officer in the Civil War. A haunting photo he had taken for his wife and children before he went off to his final war was the only trace of him that remained 150 years later. Using the Federal Archives in Washington, D.C., specialized history libraries in California and Wisconsin, and with significant help from amateur historians who form a unique Internet community, the author recovers Peter Curry's remarkable life from his enlistment in New York City in 1840 to his 1863 military funeral in Civil War Arkansas.

A Natural History of California Allan A. Schoenherr, 2017-07-03. In this comprehensive and abundantly illustrated book, Allan A. Schoenherr describes the natural history of California, a state with a greater range of landforms, a greater variety of habitats, and more kinds of plants and animals than any area of equivalent size in all of North America. A Natural History of California focuses on each distinctive region, addressing its climate, rocks, soil, plants, and animals. The second edition of this classic work features updated species names and taxa, new details about parks reclassified by federal and state agencies, new stories about modern human and animal interaction, and a new epilogue on the impacts of climate change.

Matej's Journey to America Donald F. Chmelka, 2002-11-19. Matej's Journey to America is a creative nonfiction chronicle exploring the forces that drove our immigrant ancestors to new lands. After Adam and Eve's eviction from Eden, man slowly scattered with a great dispersion occurring about 2700 BC, as the Lord confounded the tongues of presumptuous Babylonians building a tower to heaven. Among the afflicted was an Aryan slave named Chmelka, who was growing hops (chmel) in the new Slavic language to flavor

beer for his Semitic masters As the Slavs fled northward toward unknown Czech lands other tribes migrated in all directions According to The Book of Mormon the righteous Jared took a Semitic clan from Babel across the mountains deserts and oceans to a New World later named America Another Semitic clan that passed through Babylon 850 years later included a young Abraham destined to be the patriarch of Judaism Christianity and Islam He introduced the concept of a single God revered by all his religious descendants but despite their many commonalties each of these three great religions seem convinced it has the only correct formula for salvation justifying incredible atrocities with God always on its side The descendants of the first Chmelka struggled as great civilizations developed and fell through the turmoil and bloodshed of the Dark Ages Marco Polo awakened Europe in the late 13th century to the riches of the Far East giving rise to explorers like Christopher Columbus who stumbled onto the North American Continent in 1492 The Protestant Reformation began to divide the Holy Roman Empire at the time adding to the bloodshed as Austria Prussia and France fought for domination in Europe Meanwhile Spain England and France were colonizing and competing for control in the New World that was becoming home to an increasing number of European emigrants looking for a better life The American Colonies fought for independence and then began to absorb all lands from the Atlantic to the Pacific Thomas Jefferson purchased the immense Louisiana Territory from Napoleon in 1803 after which mountain men opened the West to homesteaders miners and ranchers My great great grandfather Matej was born as the Rocky Mountain fur trade boomed in 1825 and grew up on a 13 acre farm in Moravia where the Chmelkas had been serfs since Charlemagne was crowned the first Holy Roman Emperor a millennium earlier Matej became a Dragoon in the Austrian Imperial Army and helped put down a revolution in Prague in 1848 the year gold was discovered in California but war spread and life worsened for European peasants Gold homesteads and wild Texas longhorns free for the taking lured thousands of oppressed Europeans to America on steamships and railroads now making long distance travel feasible After Prussia defeated the Austrian Empire including Bohemia and Moravia and then France Matej s family escaped its misery and immigrated to Nebraska in 1871 They found a difficult life with grasshoppers drought hail and fires destroying crops spurring Matej s fourteen year old son to join a Texas cattle drive and then dodge Indians and gunfighters for fourteen years in the Wild West New technologies in farm equipment transportation and communications made America the envy of the world in 1902 when Matej died and was buried near the prairie church he helped build Matej s Journey to America honors him and his fellow immigrants ordinary men and women generally lost in history for the legacies and opportunities they gave us in our great land of freedom
