Abstract

Spanking the Maid is the most famous representative novel in narrative by Robert Coover. It focuses on the complex feeling of dynamic power between a maid and her employer. The novel makes the interaction between the characters an emerging aspect of psychological tension and a gradual ambiguity between reality and fantasy. It takes the reader into a dreamworld in which it is supposed that the maid's struggle is an endless effort for perfection and the employer's unquenchable thirst for sex cannot be controlled. The story focuses on a cyclical pattern, depicting several themes such as obsession, ritual, dominance, and submission. Based on sadism, the novel introduces us to how pleasure and pain take part in the life of a human being.

Keywords: Dynamic, Interaction, Ambiguity, Fantasy, Unquenchable, Obsession, Dominance, Submission, Sadism.

Understanding Robert Coover Brian Evenson, 2003 This text takes on the work of Robert Coover a major figure of postmodern metafiction In an analysis of Coover's short stories and novels it demonstrates how Coover writes in several different modes that cross over into one another Going for a Beer Robert Coover, 2025-04-25 A mixtape of variations and a fugue on time from a postmodern master Familiar tales and conventional genres are made new tinged with shuddering wonder and titillating humor Yu Yun Hsieh The New York Times Book Review Robert Coover has been playing by his own rules for more than half a century earning the 1987 Rea Award for the Short Story as a writer who has managed willfully and even perversely to remain his own man while offering his generous vision and versions of America Here in this selection of his best stories you will find an invisible man tragically obsessed by an invisible woman a cartoon man in a cartoon car who runs over a real man who is arrested by a real policeman with cartoon eyes a stick man who reinvents the universe While invading the dreams and nightmares of others Coover cuts to the core of how realism works Robert Coover and the Generosity of the Page Stephane Vanderhaeghe, 2013-03-05 Robert Coover and the Generosity of the Page is an unconventional study of Robert Coover's work from his early masterpiece The Origin of the Brunists 1966 to the recent Noir 2010 Written in the second person it offers a self reflexive investigation into the ways in which Coover's stories often challenge the reader to resist the conventions of sense making and even literary criticism By portraying characters lost in surroundings they often fail to grasp Coover's work playfully enacts a melo drama of cognition that mirrors the reader's own desire to interpret and make sense of texts in unequivocal ways This tendency in Coover's writing is indicative of a larger refusal of the ready made of the once and for all or the authoritative celebrating instead in its generosity the widening of possibilities thus inevitably forcing the reader critic to acknowledge the arbitrariness and artificiality of her responses
