The Evolution of Conceptual Art In America Kempton Mooney, 2000      **Radical Coherency** David Antin, 2012-03-15 We got to talking so David Antin begins the introduction to *Radical Coherency* embarking on the pursuit that has marked much of his breathless, brilliantly conversational work. For the past forty years, whether spoken under the guise of performance artist or poet, cultural explorer or literary critic, Antin's innovative observations have helped us to better understand everything from Pop to Postmodernism. Intimately wedded to the worlds of conceptual art and poetics, *Radical Coherency* collects Antin's influential critical essays and spontaneous performed lectures or talk pieces for the very first time, capturing one of the most distinctive perspectives in contemporary literature. The essays presented here range from the first serious assessment of Andy Warhol published in a major art journal, as well as Antin's provocative take on Clement Greenberg's theory of Modernism, to frontline interventions in present debates on poetics and fugitive pieces from the 60s and 70s that still sparkle today and represent a gold mine for art historians of the period. From John Cage to Allan Kaprow, Mark Rothko to Ludwig Wittgenstein, Antin takes the reader on an idiosyncratic personal journey through twentieth-century culture with his trademark antiformalist panache, one that will be welcomed by any fan of this consummate trailblazer.      **Kill for Peace** Matthew Israel, 2013-07-15 The book addresses chronologically the most striking reactions of the art world to the rise of military engagement in Vietnam, then in Cambodia. Guillaume LeBot, *Critique d'art: The Vietnam War 1964-1975* divided American society like no other war of the twentieth century, and some of the most memorable American art and art-related activism of the last fifty years protested U.S. involvement. At a time when Pop Art, Minimalism, and Conceptual Art dominated the American art world, individual artists and art collectives played a significant role in antiwar protest and inspired subsequent generations of artists. This significant story of engagement, which has never been covered in a book-length survey before, is the subject of *Kill for Peace*. Writing for both general and academic audiences, Matthew Israel recounts the major moments in the Vietnam War and the antiwar movement and describes artists' individual and collective responses to them. He discusses major artists such as Leon Golub, Edward Kienholz, Martha Rosler, Peter Saul, Nancy Spero, and Robert Morris.

artists groups including the Art Workers Coalition AWC and the Artists Protest Committee APC and iconic works of collective protest art such as AWC's Q And Babies A And Babies and APC's The Artists Tower of Protest Israel also formulates a typology of antiwar engagement identifying and naming artists approaches to protest These approaches range from extra aesthetic actions advertisements strikes walk outs and petitions without a visual aspect to advance memorials which were war memorials purposefully created before the war's end that criticized both the war and the form and content of traditional war memorials Accessible and informative Art Libraries Society of North America Die Sammlung Marzona Lóránd Hegyi, Rainer Fuchs, 1995 Alfabetisk ordnet udstillingskatalog over Egidio Marzonas privatsamling af moderne kunst i Gardenpalais Liechtenstein **Art After the Bomb** Darrell D. Davisson, 2008 This book is requisite reading material for any person claiming to be an educated and informed member of the global community Our understanding in the West of the Eastern cultures specially the different cultures involving the Muslims is alarmingly low The book strives to offer a view from the ground a keyhole perspective that offers the readers a close and personal peek into some of the ethical underpinnings and the philosophical guiding parameters that inform the Muslim and the Eastern mind There are over 1.3 billion Muslims in the world It would be a serious intellectual fallacy to assume that they are all homogenous or to be more preposterous assume they are all terrorists It is extremely tragic that it took the Iranian hostage crisis to teach us about Shia Islam and 9/11 to teach us about Wahabi Islam Properly acquired knowledge not just what we learn from the media will allow us to be anticipatory and rational rather than being reactive and emotional For the Muslim reader specially the children and the youth the book strives to offer a deeper understanding of Islam beyond the boundaries of ritual Islam into the wide open space of spiritual and intellectual Islam To inspire them to appreciate and live up to the wonderful legacy of Islam and not to be mired down into some deviant interpretations of people with questionable motives The book is designed to encourage the process of tearing down walls and building bridges We share common dreams aspirations and challenges We share a common globe and a common destiny The author believes that there are no clashes of civilizations just clashes of ignorance and misunderstanding
