The Poems of Robert Frost Mordecai Marcus,1991 In writing this book

my intention is to fill a need not met by any of the excellent critical books and collections of essays about Robert Frost's poems. A few of these books provide analysis of up to 50 or 60 of Frost's poems. But none offers as this work does a basic commonsensical explication of all 355 poems in *The Poetry of Robert Frost* 1969 edited by Edward Connery Lathem, now the standard collection of Frost's poems from the Introduction by the author.
