Robert Menzies 1894 1943:

Menzies at War Anne Henderson, 2014-07-01 In the months following his resignation as PM in late August 1941 Menzies swayed between relief at his release from the burdens of office as PM and despair that his life at the top had come to so little. Many followers of Australian political history including Liberal party supporters forget that Robert Menzies had many years in the political wilderness not knowing he would end up being Australia's longest serving prime minister. This book focuses on the period between 1941 when Menzies lost the prime ministership to 1949 when he regained it. In the interim he travelled around the world spending an extended time in Britain during World War II, set up the Liberal Party and the author argues developed the leadership qualities that made him so successful. Anne Henderson refers to this time as his real political bleeding. *Australia's Forgotten Soldiers in the Empire, 1939-1947* Lee Rippon, 2024-08-02 This book explores how Australia managed the prisoner of war issue throughout the Second World War and the immediate post war period. It examines how the Australian government responded to the captivity of thousands of Australians in Italy and the detention of an even greater number of Italians in Australia. The war it finds created a series of diplomatic and political challenges for belligerent governments including Australia. The author contends that Australia's response was guided not only by other pragmatic considerations such as reciprocity, the practicalities of war and importantly national interest. The Australian government was not the only one to manage its prisoner of war policy in this way. By exploring the Australian government's relationship with Britain as part of the British Empire, this book clarifies under what circumstances and to what extent Australia sought to assert a level of independence in pursuing its national interest even when that approach did not align with British policy. Robert Menzies: 1894-1943 Allan William Martin, Patsy Hardy, 1996 **International Law in Public Debate** Madelaine Chiam, 2021-12-09 Public debates in the language of international law have occurred across the 20th and 21st centuries and have produced a popular form of international law that matters for international practice. This book analyses the people who used international law and how they used it in debates over Australia's participation in the 2003 Iraq War, the Vietnam War and the First World War. It examines texts such as newspapers, parliamentary debates, public protests and other expressions of public opinion. It argues that these interventions produced a form of international law that shares a vocabulary and grammar with the expert forms of that language and distinct competences in order to be persuasive. This longer history also illustrates a move from the use of international legal language as part of collective justifications to the use of international law as an autonomous justification for state action. *The Australian School of International Relations* J. Cotton, 2013-07-10 This book offers the first comprehensive account of the emergence of the IR discipline in Australia. Initially influenced by British ideas, the first generation of Australian international relations practitioners demonstrated in their work a strong awareness of the unique local conditions to which their theorizing should respond. The Oxford Handbook of Political Leadership R. A. W. Rhodes, Paul 't Hart, 2014-05-29 Political leadership has made a

comeback It was studied intensively not only by political scientists but also by political sociologists and psychologists Sovietologists political anthropologists and by scholars in comparative and development studies from the 1940s to the 1970s Thereafter the field lost its way with the rise of structuralism neo institutionalism and rational choice approaches to the study of politics government and governance Recently however students of politics have returned to studying the role of individual leaders and the exercise of leadership to explain political outcomes The list of topics is nigh endless elections conflict management public policy government popularity development governance networks and regional integration In the media age leaders are presented and stage managed spun DDLas the solution to almost every social problem Through the mass media and the Internet citizens and professional observers follow the rise impact and fall of senior political officeholders at closer quarters than ever before This Handbook encapsulates the resurgence by asking where are we today It orders the multidisciplinary field by identifying the distinct and distinctive contributions of the disciplines It meets the urgent need to take stock It brings together scholars from around the world encouraging a comparative perspective to provide a comprehensive coverage of all the major disciplines methods and regions It showcases both the normative and empirical traditions in political leadership studies and juxtaposes behavioural institutional and interpretive approaches It covers formal office based as well as informal emergent political leadership and in both democratic and undemocratic polities **The**

Liberal Mind in a Conservative Party Geoffrey Robinson, 2025-06-17 Robinson analyses the peculiarly Australian intellectual tradition of liberal conservatism within the mainstream centre right Liberal Party of Australia Conservative intellectuals in Australia have forged a pragmatic sceptical and utilitarian liberal conservatism focused on the tasks of government It remains distant both from the romantic and organicist ideas of the populist right and the simplicities of libertarianism Focusing on key figures within this tradition Robinson tracks the progress of Australian liberal conservatism over the years through its origins in the work of David Hume to the thoughts of Peter Coleman David Kemp and Andrew Norton before moving forward to George Brandis and Gregory Melleuish The Liberal Party of Australia has appealed successfully to the conservative sentiments of voters in a liberal society The Liberal Mind in a Conservative Party tells the story of seven intellectuals who helped make this possible Peter Coleman drew on John Anderson Georges Sorel and Michael Oakeshott to champion neoconservatism He argues that this potent political ideology has shaped a distinct political identity which rejects conservative traditionalism and libertarian economics while defending a pragmatic approach to capitalism A fascinating read for students and scholars of Australian politics this book will also be of great value to readers with an interest in international centre right politics **Strategic Narratives, Public Opinion and War** Beatrice De Graaf, George Dimitriu, Jens Ringsmose, 2015-02-11 This volume explores the way governments endeavoured to build and maintain public support for the war in Afghanistan combining new insights on the effects of strategic narratives with an exhaustive series of case studies In contemporary wars with public opinion impacting heavily on outcomes strategic narratives provide a grid for

interpreting the why what and how of the conflict This book asks how public support for the deployment of military troops to Afghanistan was garnered sustained or lost in thirteen contributing nations Public attitudes in the US Canada Australia and Europe towards the use of military force were greatly shaped by the cohesiveness and content of the strategic narratives employed by national policy makers Assessing the ability of countries to craft a successful strategic narrative the book addresses the following key areas 1 how governments employ strategic narratives to gain public support 2 how strategic narratives develop during the course of the conflict 3 how these narratives are disseminated framed and perceived through various media outlets 4 how domestic audiences respond to strategic narratives 5 how this interplay is conditioned by both events on the ground in Afghanistan and by structural elements of the domestic political systems This book will be of much interest to students of international intervention foreign policy political communication international security strategic studies and IR in general *Mobilising the Masses* Matthew Cunningham, 2022-04-05 The radical right has gained

considerable ground in the twenty first century From Brexit to Bolsonaro and Tea Partiers to Trump many of these diverse manifestations of right wing populism share a desire to co opt or supplant the mainstream parties that have traditionally held sway over the centre right It is now more important than ever to understand similar moments in Australian and New Zealand history This book concerns one such moment the Great Depression and the explosion of large populist conservative groups that accompanied the crisis These citizens movements as they described themselves sprang into being virtually overnight and amassed a combined membership in the hundreds of thousands They staunchly opposed party politicians and political parties for their supposed inaction and infighting Whether left or right it did not matter They wanted to use their vast numbers to pressure their governments into enacting proposals they believed were in the national interest a smaller more streamlined government where Members of Parliament were free to act according to their conscience rather than their party allegiance At the same time the movements prescribed antidotes for their nations economic ill health that were often radical and occasionally anti democratic At the height of their power they threatened to disrupt or outright replace the centre right political parties of the time particularly in Australia At a time when fascism and right wing authoritarianism were on the march internationally the future shape of conservative politics was at stake **A Concise History of Australia** Stuart Macintyre, 1999 This entertaining book is the most up to date single volume Australian history available
