Robert Mugabe and the Will to Power in an African Postcolony William J. Mpfu, 2021-03-04 This book is a philosopher s view into the chaotic postcolony of Zimbabwe delving into Robert Mugabe s Will to Power The Will to Power refers to a spirited desire for power and overwhelming fear of powerlessness that Mugabe artfully concealed behind performances of invincibility Nietzsche s philosophical concept of the Will to Power is interpreted and expanded in this book to explain how a tyrant is produced and enabled and how he performs his tyranny Achille Mbembe s novel concept of the African postcolony is mobilised to locate Zimbabwe under Mugabe as a domain of the madness of power The book describes Mugabe s development from a vulnerable youth who was intoxicated with delusions of divine commission to a monstrous tyrant of the postcolony who mistook himself for a political messiah This account exposes how post political euphoria about independence from colonialism and the heroism of one leader can easily lead to the degeneration of leadership However this book is as much about bad leadership as it is about bad followership Away from Eurocentric stereotypes where tyranny is isolated to African despots this book shows how Mugabe is part of an extended family of tyrants of the world He fought settler colonialism but failed to avoid being infected by it and eventually became a native coloniser to his own people The book concludes that Zimbabwe faces not only a simple struggle for democracy and human rights but a Himalayan struggle for liberation from genocidal native colonialism that endures even after Robert Mugabe s dethronement and death **Robert**

Mugabe Sue Onslow, Martin Plaut, 2018-03-05 Zimbabwe s President Robert Mugabe sharply divides opinion and embodies the contradictions of his country s history and political culture As a symbol of African liberation and a stalwart opponent of white rule he was respected and revered by many This heroic status contrasted sharply in the eyes of his rivals and victims with repeated cycles of gross human rights violations Mugabe presided over the destruction of a vibrant society capital flight

and mass emigration precipitated by the policies of his government resulting in his demonic image in Western media This timely biography addresses the coup led by some of Mugabe's closest associates that forced his resignation after thirty seven years in power Sue Onslow and Martin Plaut explain Mugabe's formative experiences as a child and young man his role as an admired Afro nationalist leader in the struggle against white settler rule and his evolution into a political manipulator and survivalist They also address the emergence of political opposition to his leadership and the uneasy period of coalition government Ultimately they reveal the complexity of the man who stamped his personality on Zimbabwe's first four decades of independence

Making History in Mugabe's Zimbabwe Blessing-Miles Tendi, 2010 The crisis that has engulfed Zimbabwe since 2000 is not simply a struggle against dictatorship It is also a struggle over ideas and deep seated historical issues still unresolved from the independence process that both Robert Mugabe's ZANU PF regime and Morgan Tsvangirai's MDC are vying first to define and then to address This book traces the role of politicians and public intellectuals in media civil society and the academy in producing and disseminating a politically usable historical narrative concerning ideas about patriotism race land human rights and sovereignty It raises pressing questions about the role of contemporary African intellectuals in the making of democratic societies In so doing the book adds a new and rich dimension to the study of African politics which is often diluted by the neglect of ideas

Mugabeism? Sabelo J. Ndlovu-Gatsheni, 2015-12-26 What is distinctive about this book is its interdisciplinary approach towards deciphering the complex meanings of President Gabriel Mugabe of Zimbabwe making it possible to evaluate Mugabe from a historical political philosophical gender literal and decolonial perspectives It is concerned with capturing various meanings of Mugabeism

Robert Mugabe's Zimbabwe, 2nd Edition Roberta Wiener, James R. Arnold, 2012-08-01 Robert Mugabe one of the world's most infamous dictators rose to power in Rhodesia the southern African region now known as independent Zimbabwe As a leader in Rhodesia's nationalist resistance movement of the 1970s Mugabe mobilized his compatriots in their struggle for control of the white ruled African nation which had declared independence from Great Britain in 1965 The bloody civil war finally ended with Zimbabwe's independence in 1980 As the president of the newly free nation Mugabe was a beacon for black African self rule raising hopes on the continent and around the world However through a series of ill conceived economic programs and a disastrously mismanaged land redistribution scheme Mugabe and his corrupt government brought ruin to his homeland Creating a harsh climate of fear brutality and zero tolerance for opposition Mugabe's rule drained a once prosperous nation of its economic and human resources In Robert Mugabe's Zimbabwe learn more about the internal workings of one of the modern world's most devastating dictatorships

Life-Writing from the Margins in Zimbabwe Oliver Nyambi, 2019-05-20 This book explores the unique contributions of various forms of post 2000 life writings such as the autobiography epistles and biographies to discourses about the nature and socio politics of what has become known as the Zimbabwean crisis c 2000 2009 Much of what has been written about the Zimbabwean crisis a decade long period of unprecedented economic collapse and political upheavals in the southern African country is strictly discipline specific and therefore limited to unidimensional modes of theorising the crisis s many and complex dimensions and dynamics In this context this book charts a paradigm shift in hermeneutic and epistemological approaches to comprehending the Zimbabwean crisis Life Writing from the Margins in Zimbabwe centres the experiences and memories of ordinary Zimbabweans in pluralizing modes of seeing and knowing the crisis The book argues that these life writings present a rich site for encountering versions of the crisis that relate in counter discursive ways to the dominant state authored narrative of the nation in crisis Oliver Nyambi s analysis contributes new ideas to ongoing debates about how cultural texts reflect on the postcoloniality of both power and experiences and negotiations of power in the context of crisis This book will be of interest to scholars and students of African literature Zimbabwean African studies postcolonial literature life writing and cultural studies

What Postcolonial Theory Doesn't Say Anna Bernard, Ziad Elmarsafy, Stuart Murray, 2015-08-11 This book reclaims postcolonial theory addressing persistent limitations in the geographical disciplinary and methodological assumptions of its dominant formations It emerges however from an investment in the future of postcolonial studies and a commitment to its basic premise namely that literature and culture are fundamental to the response to structures of colonial and imperial domination To a certain extent postcolonial theory is a victim of its own success not least because of the institutionalization of the insights that it has enabled Now that these insights no longer seem new it is hard to know what the field should address beyond its general commitments Yet the renewal of popular anti imperial energies across the globe provides an important opportunity to reassert the political and theoretical value of the postcolonial as a comparative interdisciplinary and oppositional paradigm This collection makes a claim for what postcolonial theory can say through the work of scholars articulating what it still cannot or will not say It explores ideas that a more

aesthetically sophisticated postcolonial theory might be able to address focusing on questions of visibility performance and literariness Contributors highlight some of the shortcomings of current postcolonial theory in relation to contemporary political developments such as Zimbabwean land reform postcommunism and the economic rise of Asia Finally they address the disciplinary geographical and methodological exclusions from postcolonial studies through a detailed focus on new disciplinary directions management studies international relations disaster studies overlooked locations and perspectives Palestine Weimar Germany the commons and the necessity of materialist analysis for understanding both the contemporary world and world literary systems
