Robert Smithson Unearthed Eugenie Tsai, Robert Smithson, 1991 Robert Smithson Unearthed Drawings Collages Writings the first full survey of this artist's work reevaluates its larger resonance and its place in the historical development of recent art Eugenie Tsai's re presentation of the work of Smithson expands our understanding of his achievement Looking beyond the Minimalist structures and the earthworks for which she is best known she explores his intellectual and aesthetic roots his early imaginings and discovers a richer range of personal affect in Smithson's art than we had been led to expect *Robert Smithson* Robert Smithson, 1996-04-10 Robert Smithson 1938 1973 one of the most important artists of his generation produced sculpture drawings photographs films and paintings in addition to the writings collected here **Robert Smithson, Land Art, and Speculative Realities** Rory O'Dea, 2023-10-23 This book explores the ways Robert Smithson's art revealed and defamiliarized the constructs of rational reality in order to allow radically speculative alternatives to emerge In this way his art is conceived as a true fiction that eradicates a false reality By tracing the web of correspondences between Smithson and science fictional speculative and mystical modes of thought Rory O'Dea explores the aesthetic encounters engendered by his art as a means to warp the contours of reality and loosen the boundaries of being human Given the current and impending catastrophes of the Anthropocene which represents the ever expanding planetary shadow cast by humanism the possibility of being other than human posited by Smithson's art is a matter of urgent concern The book will be of interest to scholars working in art history contemporary art American studies and environmental humanities **The Fate Of A Gesture** Carter Ratcliff, 2019-07-09 I am indebted first to Thomas B Hess and James Fitzsimmons the editors of Artnews and Art International who encouraged me to publish the essays and reviews that led years later to this book I am equally grateful for the encouragement I have received from Elizabeth C Baker the editor of Art in America **Materials, Practices, and Politics of Shine in Modern Art and Popular Culture** Antje Krause-Wahl, Petra Löffler, Anne Söll, 2021-06-03 Shine allures and awakens desire As a phenomenon of perception shiny things and materials fascinate and tantalize They are a formative element of material culture promising luxury social distinction and the hope of limitless experience and excess Since the early twentieth century the mass production dissemination and popularization of synthetic materials that produce heretofore unknown effects of shine have increased At the same time shine is subjectified as glamor and made into a token of performative self empowerment The volume illuminates genealogical as well as systematic relationships between material phenomena of shine and cultural philosophical concepts of appearance illusion distraction and glare in bringing together renowned scholars from various disciplines **Gendering Landscape Art** Steven Adams, Anna Gruetzner Robins, 2000 While gender has been the subject of extensive critical inquiry the debate has focused primarily on the human particularly the female body The spaces bodies occupy and the ways in which those spaces are depicted in landscape art has not however been subject to investigation This book is the first sustained attempt to fill this gap

in art history **American Artists Engage the Built Environment, 1960-1979** Susanneh Bieber, 2023-07-31 This volume reframes the development of US American avant garde art of the long 1960s from minimal and pop art to land art conceptual art site specific practices and feminist art in the context of contemporary architectural discourses Susanneh Bieber analyzes the work of seven major artists Donald Judd Robert Grosvenor Claes Oldenburg Robert Smithson Lawrence Weiner Gordon Matta Clark and Mary Miss who were closely associated with the formal aesthetic innovations of the period While these individual artists came to represent diverse movements Bieber argues that all of them were attracted to the field of architecture the work of architects engineers preservationists landscape designers and urban planners because they believed these practices more directly shaped the social and material spaces of everyday life This book's contribution to the field of art history is thus twofold First it shows that the avant garde of the long 1960s did not simply develop according to an internal logic of art but also as part of broader sociocultural discourses about buildings and cities Second it exemplifies a methodological synthesis between social art history and poststructural formalism that is foundational to understanding the role of art in the construction of a more just and egalitarian society The book will be of interest to scholars working in art history architecture urbanism and environmental humanism Allan Kaprow, Robert Smithson, and the Limits to Art Philip Ursprung, Fiona Elliott, 2013-05-10 This innovative study of two of the most important artists of the twentieth century links the art practices of Allan Kaprow and Robert Smithson in their attempts to test the limits of art both what it is and where it is Ursprung provides a sophisticated yet accessible analysis placing the two artists firmly in the art world of the 1960s as well as in the art historical discourse of the following decades Although their practices were quite different they both extended the studio and gallery into desert landscapes abandoned warehouses industrial sites train stations and other spaces Ursprung bolsters his argument with substantial archival research and sociological and economic models of expansion and limits **Anywhere or Not at All** Peter Osborne, 2013-06-04 A new reading of the philosophy of contemporary art by the author of *The Politics of Time* Contemporary art is the object of inflated and widely divergent claims But what kind of discourse can open it up effectively to critical analysis Anywhere or Not at All is a major philosophical intervention in art theory that challenges the terms of established positions through a new approach at once philosophical historical social and art critical Developing the position that contemporary art is postconceptual art the book progresses through a dual series of conceptual constructions and interpretations of particular works to assess the art from a number of perspectives contemporaneity and its global context art against aesthetic the Romantic pre history of conceptual art the multiplicity of modernisms transcategoriality conceptual abstraction photographic ontology digitalization and the institutional and existential complexities of art space and art time Anywhere or Not at All maps out the conceptual space for an art that is both critical and contemporary in the era of global capitalism Winner of the 2014 Annual Book Prize of the Association for the Study of the Arts of the Present USA Anglo-American Exchange in Postwar Sculpture, 1945-1975 Rebecca

Peabody, 2011-12-31 *Anglo American Exchange in Postwar Sculpture 1945-1975* redresses an important art historical oversight. Histories of American and British sculpture are usually told separately with artists and their work divided by nationality yet such boundaries obscure a vibrant exchange of ideas, individuals, and aesthetic influences. In reality, the postwar art world saw dynamic interactions between British and American sculptors, critics, curators, teachers, and institutions. Using works of art as points of departure, this book explores the international movement of people, objects, and ideas, demonstrating the importance of Anglo American exchange to the history of postwar sculpture.
