Gardens Robert Pogue Harrison, 2010-10 Humans have long turned to gardens both real and imaginary for sanctuary from the frenzy and tumult that surrounds them Those gardens may be as far away from everyday reality as Gilgamesh s garden of the gods or as near as our own backyard but in their very conception and the marks they bear of human care and cultivation gardens stand as restorative nourishing necessary havens With Gardens Robert Pogue Harrison graces readers with a thoughtful wide ranging examination of the many ways gardens evoke the human condition Moving from the gardens of ancient philosophers to the gardens of homeless people in contemporary New York he shows how again and again the garden has served as a check against the destruction and losses of history The ancients explains Harrison viewed gardens as both a model and a location for the laborious self cultivation and self improvement that are essential to serenity and enlightenment an association that has continued throughout the ages The Bible and Qur an Plato s Academy and Epicurus s Garden School Zen rock and Islamic carpet gardens Boccaccio Rihaku Capek Cao Xueqin Italo Calvino Ariosto Michel Tournier and Hannah Arendt all come into play as this work explores the ways in which the concept and reality of the garden has informed human thinking about mortality order and power Alive with the echoes and arguments of Western thought Gardens is a fitting continuation of the intellectual journeys of Harrison s earlier classics Forests and The Dominion of the Dead Voltaire famously urged us to cultivate our gardens with this compelling

volume Robert Pogue Harrison reminds us of the nature of that responsibility and its enduring importance to humanity

Brazil Built Zilah Quezado Deckker, 2013-09-13 Brazil Built is an examination of the architecture of the Modern Movement in Brazil. In the 1940s and 1950s Brazil acquired unprecedented prestige in the world of Modern architecture. Brazil was regarded as the country which had inherited the progressive Modernism of the pre-war period in Europe and which furthermore had initiated a new phase of the assimilation of cultural and environmental considerations. This book constitutes a unique presentation of the major Modern buildings in Brazil in a historical context. Prompted by the contemporary re-evaluation of Modernism and renewed interest in Brazil, this book examines how these Modern buildings came into being, how they came to be so highly regarded, and the changing reactions to them in Brazil and abroad.
