Marriage and Marital Breakdown

2 types of general evidence suggest that the institution of marriage is in danger:

1. A decreasing number of people are getting married
2. Divorce rates are increasing.

Brenda Almond (2006) believes that family is fragmenting because there is an increased emphasis on the needs of individuals and less emphasis on society's need for the rearing of children in stable relationships. There is increasing social and legal acceptance of marital breakdown, cohabitation and gay and lesbian relationships. Almond sees the decline of family as damaging to society.

Patricia Morgan (2003) suggests that factors such as increased cohabitation, declining fertility, increase in single parenthood and childbirth outside marriage are all indicative of this decline. She also sees this as harmful for society because cohabiting couple are more likely to split up than married couple

The Family and Industrial Society C. C. Harris, 2021-10-17 Originally published in 1983 the origin of this book is to be found in C C Harris's Changing conceptions of the relation between family and societal form in *Scase Industrial Society Class Cleavage and Control* In that article Harris attempted to relate traditional research on the family to recent developments in historical enquiry and Marxist scholarship The aim of *The Family and Industrial Society* is to explain the character of the contemporary family by placing it in a wider historical and theoretical perspective It is therefore directed at the undergraduate student for whom the sociology of the family as a topic has for too long been relatively unrelated to those contemporary developments in sociological thought and practice which inform other substantive areas of sociological work The late C C Harris is perhaps best known for his best selling introductory text *The Family An Introduction* first published in 1969 This new text was not however a straightforward replacement of an earlier book by a more up to date volume Far too much had happened in sociology in social studies and in family life itself for a

simple updating to make any sense The Family was primarily a descriptive introduction and was a presentation albeit critical of an orthodoxy While this new book retains an introductory element based upon The Family s earlier chapters the greater part of it is exploratory and assumes a higher level of sophistication and sociological understanding it is also substantially longer Dr Harris was singularly well qualified to write a volume of this kind Not only had he conducted and was conducting empirical research into the family but his wide theoretical interests rendered him uniquely well placed to contribute to the theoretical development of his field Few sociologists shared his familiarity with both anthropological and historical work He was thoroughly familiar with the now unfashionable structural functional approach of which he had always been critical but was enthusiastic about the potentialities of contemporary developments The result is a sophisticated text which combines instruction criticism interpretation and exploration in one volume which familiarises the student with the fundamental work of the past too often neglected and explores exciting new developments for the future It also includes the only general discussion of change in the British family since the last edition of Fletcher s The Family and Marriage in Britain Ireland and the Politics of Change William J. Crotty, David A. Schmitt, 2014-06-17 Ireland and the Politics of Change provides a timely assessment of the fundamental changes that have occurred in Irish society over the last several decades from the standpoint of their political significance There is a particular concern with the leadership role of government and other political institutions in stimulating managing and responding to the changes taking place that are of fundamental importance to understanding contemporary politics and today s Ireland in the world community Considerable social economic demographic and international change has taken place within Ireland and Northern Ireland and without in relation to the rest of the world and particularly in response to the association with the European Union Ireland and the Politics of Change examines institutional developments economic forces demographic and attitudinal profiles and group based religious gender class concerns as they have evolved and assesses their significance for policy enactment and political representation **Beyond the Color Line** Abigail Thernstrom, Stephan Thernstrom, 2013-09-01 Twenty five essays covering a range of areas from religion and immigration to family structure and crime examine America s changing racial and ethnic scene They clearly show that old civil rights strategies will not solve today s problems and offer a bold new civil rights agenda based on today s realities
