Faulkner's Artistic Vision Ryuichi Yamaguchi,2004-04 Although William Faulkner's imagination is often considered solely tragic it actually blended what Faulkner himself called the bizarre and the terrible Not only did Faulkner's vision encompass both comedy and tragedy it perceived a latent humor in tragedy and vice versa As a result Faulkner's fiction is seldom simply comic or simply tragic Faulkner's comedy incorporates tragedy and despair and the humor in his novels may serve as well to intensify as to relieve a tragic or horrific effect This study examines Faulkner's first nine novels from *Soldiers Pay* to *Absalom Absalom* showing how humor is used to express theme how it appears in the action characters and discourse of each novel and how it contributes to the overall effect of each novel In each case even in the most pained and angry novels Faulkner's practice of humor expresses his view that humor is an inseparable element of human experience Ryuichi Yamaguchi is Professor of English and American literature at the Aichi University in Japan

Literature Lovorka Gruić Grmuša, Marija Brala Vukanović, 2009-10-02 Space and time their infiniteness and or their limitation s their coding conceptualization and the relationship between the two have been intriguing people for millennia Linguistics and literature are no exceptions in this sense This book brings together eight essays which all deal with the expression of space and or time in language and or literature The book explores the issues of space time and their interrelation from two different perspectives the linguistic and the literary The first section Time and Space in Language contains four papers which focus on linguistics i e explore issues relative to the expression of time and space in natural languages The topics under consideration include typology regarding the expression of spatial information in languages around the world Ch 1 space as expressed and conceptualized in neutral postural and verbs of fictive motion Ch 2 prepositional semantics Ch 3 aspectuality in Tamil Ch 4 All articles propose innovative topics and or approaches crossreferring when possible between space and time Given that all seem to propose at least some elements of language universality vs language variability the strong cognitivist nature of the approach even when the paper is not written within a cognitive linguistic framework represents a particularly strong feature of the section with a strong appeal to experts from fields that need not necessarily be linguistic The second section of this volume Space and Time in Literature brings together four essays dealing with literary topics Inherent in each narrative are both temporal and spatial implications because a literary text testifies of a certain time it is from and about a certain period as well as about a certain space even if virtual A particularly strong feature of these papers is that they envision space and time as complementary parameters of experience and not as conceptual opposites following the transfer of perspective through the whole century Departing from the late nineteenth century England s and Croatia s fictive spaces Ch 5 the topic moves via the American Southern Gothic focusing on Faulkner from the thirties to the early sixties Ch 6 via the post WWII perspectives on history probing the postmodern context of temporality Ch 7 to finally reach the contemporary era of post 9 11 space time Ch 8 The voyage from chapter five to eight is thus a journey through space and time that allows for some answers to the nature of reality of a variety of space times as conceived by both the authors of these essays as well as by the authors that these essays discuss The main goal of the editors has been to bring together different scientific traditions which can contribute complementary concerns and methodologies to the issues under exam from the literary and descriptive via the diachronic and typological explorations all the way to cognitive linguistic analyses bordering psycholinguistics and neuroscience One of the strengths of this volume thus lies in the diversity of perspectives articulated within it where the agreements but also the controversies and divergences demonstrate constant changes in society which in turn shapes our views of space time reality All this also suggests that science and literature are not above or apart from their culture but embedded within it and that there exists a strong relativistic interrelation between spatio temporal reality and culture The only hope to objectively envisage any if not all of the above is by learning how to move our thought through space time or to put it in simpler terms how to shift perspectives **Faulkner**

Lothar Hönninghausen, 2011-01-03 That Faulkner was a liar not just in his writing but also in his life has troubled many critics. They have explained his numerous false stories particularly those about military honors he actually never earned and war wounds he never sustained with psychopathological imposture theories. The drawback of this approach is that it reduces and oversimplifies the complex psychological and aesthetic phenomenon of Faulkner's role playing. Instead, this critical study by one of the most acclaimed international Faulkner scholars takes its cue from Nietzsche's concept of truth as a mobile army of metaphors and from Ricoeur's dynamic view of metaphor and treats the wearing of masks not as an ontological issue but as a matter of discourse. Hönninghausen examines Faulkner's interviews and photographs for the fictions they perpetuate. Such Faulknerian role playing he interprets as a mode of organizing experience and relates it to the crafting of the artist's various personae in his works. Mining metaphor as well as modern theories on social role playing, Hönninghausen examines unexplored aspects of image creation and image reception in such major Faulkner novels as *The Sound and the Fury*, *Light in August*, *A Fable*, and *Absalom, Absalom!*

A Question of Time Cindy Weinstein, 2018-12-13 This book brings together leading critics in American literature to address the representation of time throughout a wide range of genres, methodologies, and chronological periods. American literature from its beginnings to the present provides a particularly rich set of texts to examine in this regard with its interest in history, modernity, and progress. Each essay considers how time embeds itself in a variety of textual representations including Native American rituals, Shaker dances, novels, poetry, and magazines in order to provide readers with a capacious view of time's constitutive role in American literature. The essays are organized into four sections: Materializing Time, Performing Time, Timing Time, and Theorizing Time. Each section reflects a particular approach to the question of time, but taken as a whole, the volume makes visible unexpected temporal patterns that cut across time period and genre.

Creating Yoknapatawpha Owen Robinson, 2013-10-23 *Creating Yoknapatawpha* is a study of the crucial interplay of reading and writing processes involved in constructing the textual environment of William Faulkner's work and the nature and significance of the world created by these many forces. Yoknapatawpha County, the author contends, is the product of these mainly mental processes of construction at all levels, and it is in the similar and even analogous situations that exist between readers and writers of and in the fiction that the dynamic of Faulkner's work is most keenly discovered. The book discusses novels from throughout Faulkner's career and uses elements of Bakhtinian and reader response theory among others to explore its subject, eschewing the limited focus both of strictly formal and more content-oriented approaches and demonstrating the need for readers and writers to work together, whether harmoniously or otherwise. By examining the fictive nature of Yoknapatawpha and the requirement for everybody to participate fully in its creation, we can establish useful bases for investigations into the real-world issues with which Faulkner is so concerned.
