Nigerian Capitalism:

Nigerian Capitalism Sayre P. Schatz, 2024-06-14 Following a surge in oil revenues in the 1970s Nigeria became one of Africa's most rapidly developing nations. In *Nigerian Capitalism* Sayre P. Schatz analyzes the country's political economy, assessing its position and proposing a development plan for the final quarter of the twentieth century. Referring to Nigeria's economic development strategy as nurture capitalism, Sayre contrasts the role of private enterprise, which is expected to foster growth of the productive sector of the economy, with the government's role, which is to nurture the capitalist sector generally and to favor indigenous enterprise in particular. The author examines the development of Nigerian nurture capitalism from 1949 to the launching of and early experience with the Third Plan 1975-80, with emphasis on the post-civil war 1970s. He then turns to an intensive study of indigenous business and possible impediments to the development of Nigerian private enterprise, analyzing the role of capital availability, entrepreneurship, and the economic environment. Sayre demonstrates that there are substantial divergences between private profitability and social utility, and that there is an abundance of socially useful investment possibilities for indigenous businessmen. The author next turns to a study of the government business assistance programs and their economic, administrative, and political characteristics. Finally, he assesses the sources of successful investment and makes a case for enhanced socially useful investments. Comparing pragmatic developmentalism, pragmatic socialism, and thoroughgoing socialism, he proposes a pragmatic orientation that postpones ideological decisions as long as practicable. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1977. **Nigerian Capitalism** Sayre P. Schatz, 1977-01-01

Nigerian Speculative Fiction Chukwunonso Ezeiyoke, 2025-05-30 This book is an exciting addition to a gap in non-Western genre studies of African fiction. It challenges the dominant canonicity of African literature, which is overshadowed by texts concerned with the colonial discourse and writing back, while exploring speculative themes in Nigerian fiction and writing that stem from an African cosmology and culture. The book examines important twentieth-century precursors of the post-millennial boom in Nigerian Speculative Fiction (SF), reading texts that were omitted from the Nigerian literary canon developed in the 1960s. It combines an analysis of recent fiction and criticism with a historical overview of the development of the under-researched area of Nigerian SF. Through these readings, the author demonstrates the range of concerns explored by Nigerian SF, including futurism, posthumanism, horror, fantasy, and science fiction, among others. This book argues that these narratives exceed the binary implicitly sustained by the texts that write back to the West and offers new readings of contemporary Nigerian SF works that imagine futures different from the past and present conditions imposed by capitalism, colonialism, and imperialism. Providing new theoretical tools and concepts, this book in the

Nigeria Charles Jarmon,1988 *Development and Diffusionism* J. Dibua,2015-12-04 This book deconstructs the neopatrimonial paradigm that has dominated analysis of Nigerian and African development It shows that by denying agency to Nigerian societies and devaluing indigenous culture and local realities Eurocentric diffusionism played a significant role in the failure of development planning

Nigerian Foreign Policy Timothy M. Shaw,Olajide Aluko,1983-06-18 Global Geopolitical Power and African Political and Economic Institutions John James Quinn,2015-12-30 Global Geopolitical Power and African Political and Economic Institutions When Elephants Fight describes the emergence and nature of the prevailing African political and economic institutions in two periods In the first most countries adopted political and economic institutions that funneled significant levels of political and economic power to the political elites usually through one or no party military political systems inward oriented development policies and or state led and often state owned industrialization In the second period most countries adopted institutions that diluted the overarching political and economic power of ruling elites through the adoption of de jure multiparty electoral systems more outward oriented trade policies and the privatization of many state owned or controlled sectors though significant political and economic power remains in their hands The choices made in each period were consistent with prevailing ideas on governance and development the self interests of political elites and the perceived availability of support or autonomy vis vis domestic regional and international sources of power at the time This book illustrates how these two region wide shifts in prevailing political and economic institutions and practices of Africa can be linked to two prior global geopolitical realignments the end of WWII with the ensuing American and Soviet led bipolar system and the end of the Cold War with American primacy Each period featured changed or newly empowered international and regional leaders with competing national priorities within new intellectual and geopolitical climates altering the opportunities and constraints for African leaders in instituting or maintaining particular political and economic institutions or practices The economic and political institutions of Africa that emerged did so as a result of a complex mix of contending domestic regional and international forces material and intellectual all which were themselves greatly transformed in the wake of these two global geopolitical realignments

Imperialism and Ethnic Politics in Nigeria, 1960-1996 Pade Badru, 1998 Badru examines the class dimension of the Nigerian political crisis since 1960 when this culturally diverse nation became independent He claims that the ruling elite whether constituted in the military or the civil society consistently used ethnicity to secure its own class domination in the absence of a coherent class ideology

Declining Hegemonical Foreign Policies of Nigeria Sheriff F. Folarin, 2024-05-02 This book examines Nigeria s declining political hegemony in Africa between 1985 and 2022 a period characterised by dramatic internal political

social and economic downturns that negatively affected her image and international relations The study traces the country's shifting leadership and foreign policies through different eras Chapters analysing Nigerian foreign policy internal dynamics ideology her military and civilian rule and how these played out in Nigeria's regional influence paint a holistic politico-historical portrait of a nation in hegemonic decline from 1989 continuing into the present day Deploying National Role Conception as an analytical tool to contextualise and dissect Nigerian foreign policy this book deepens our understanding of Nigerian international relations and challenges preconceptions as to how and through what lens foreign policies of declining states can and should be considered Through its approach the book offers scholars students researchers and policymakers fresh perspectives and tools for analysing foreign policies of states particularly Nigeria

Democracy and Prebendal Politics in Nigeria Richard A. Joseph, 2014-02-06 Originally published in 1987 this book examines the relationship between the pattern of party formation in Nigeria and a mode of social political and economic behaviour Richard Joseph terms prebendalism He demonstrates the centrality in the Nigerian polity of the struggle to control and exploit public office and argues that state power is usually viewed by Nigerians as an array of prebends the appropriation of which provides access to the state treasury and to control over remunerative licenses and contracts In addition the abiding desire for a democratic political system is frustrated by the deepening of ethnic linguistic and regional identities By exploring the ways in which individuals at all social levels contribute to the maintenance of these practices the book provides an analysis of the impediments to constitutional democracy that is also relevant to the study of other nations
