Southbound Ernest Suarez, T. W. Stanford, Amy Verner, 1999 There's a real flowering I think of southern poetry right now assembling at the edges of everything This observation by Pulitzer Prize winning poet Charles Wright reflects upon the continuing vibrancy and importance of the southern poetic tradition Although the death of James Dickey in 1997 left southern poetry without a recognizably dominant voice an array of other vibrant voices continue to be heard and recognized Southbound Interviews with Southern Poets provides a glimpse of the many poets who promise to keep southern poetry vital into the twenty first century **Foremother Love** Dana Murphy, 2025-06-27 Dana Murphy examines the importance of

Brill's Companion to Classics in the Early Americas ,2021-08-30 Brill s Companion to Classics in the Early Americas illuminates the remarkable range of Greco Roman classical receptions across the western hemisphere from the late fifteenth to the early nineteenth century Bringing together fifteen essays by scholars working at the intersection of Classics and all aspects of Americanist studies this unique collection examines how Hispanophone Lusophone Anglophone Francophone and or Indigenous individuals engaged with Greco Roman literary cultures and materials By coming at the matter from a multilingual transhemispheric perspective it disrupts prevailing accounts of classical reception in the Americas which have typically privileged North over South Anglophone over non Anglophone and the cultural production of hegemonic groups over that of more marginalized others Instead it offers a fresh account of how Greco Roman literatures and ideas were in play from Canada to the Southern Cone to the Caribbean treating classical reception in the early Americas as a dynamic polyvocal phenomenon which is truly transhemispheric in reach

Empire of Ruin John Levi Barnard,2018 From the US Capitol to the Lincoln Memorial and the 9 11 Memorial Museum classical forms and ideas have been central to an American nationalist aesthetic Beginning with an understanding of this centrality of the classical tradition to the construction of American national identity and the projection of American power Empire of Ruin describes a mode of black classicism that has been integral to

the larger critique of American politics aesthetics and historiography that African American cultural production has more generally advanced While the classical tradition has provided a repository of ideas and images that have allowed white American elites to conceive of the nation as an ideal Republic and the vanguard of the idea of civilization African American writers artists and activists have characterized this dominant mode of classical appropriation as emblematic of a national commitment to an economy of enslavement and a geopolitical project of empire If the dominant forms of American classicism and monumental culture have asserted the ascendancy of what Thomas Jefferson called an empire for liberty for African American writers and artists it has suggested that the nation is nothing exceptional but rather another iteration of what the radical abolitionist Henry Highland Garnet identified as an empire of slavery inexorably devolving into an empire of ruin

African American Literature and the Classicist Tradition T. Walters, 2007-10-29 This is a groundbreaking study exploring the significant relationship between western classical mythology and African American women's literature A comparative analysis of classical revisions by eighteenth and nineteenth century Black women writers Phillis Wheatley and Pauline Hopkins and twentieth century writers Gwendolyn Brooks Toni Morrison and Rita Dove reveals that Black women writers revise specific classical myths for artistic and political agency The study demonstrates that women rework myth to represent mythical stories from the Black female perspective and to counteract denigrating contemporary cultural and social myths that disempower and devalue Black womanhood Through their adaptations of classical myths about motherhood Wheatley Ray Brooks Morrison and Dove uncover the shared experiences of mythic mothers and their contemporary African American counterparts thus offering a unique Black feminist perspective to classicism The women also use myth as a liberating space where they can speak the unspeakable and empower their subjects as well as themselves **Theodoros Prodromos:**
