The Bar U & Canadian Ranching History S. M. Evans,2004

For much of its 130 year history the Bar U Ranch can claim to have been one of the most famous ranches in Canada Its reputation is firmly based on the historical role that the ranch has played its size and longevity and its association with some of the remarkable people who have helped develop the cattle business and build the Canadian West The long history of the ranch allows the evolution of the cattle business to be traced and can be seen in three distinct historical periods based on the eras of the individuals who owned and managed the ranch These colourful figures beginning with Fred Stimson then George Lane and finally Pat Burns have left an indelible mark on the Bar U as well as Canadian ranching history The Bar U and Canadian Ranching History is a fascinating story that integrates the history of ranching in Alberta with larger issues of ranch historiography in the American and Canadian West and contributes greatly to the overall understanding of ranching history The Kansas Beef Industry Charles L. Wood,Joshua Specht,2021-10-08 This book relates the modern development of the Kansas beef cattle industry combining both the history of production including specific business problems and the significant work in upbreeding and an examination of the marketing aspects of the industry that became so important during the twentieth century Sharpest focus is on the period 1890 to 1940 after the Western beef industry had passed through the transition from using the expansive open range method of beef production to the more rational and organized methods of today Wood presents a detailed discussion of the history of upbreeding He points out the little known fact that the fine blooded animals especially Herefords that moved out from the Midwest were probably more important in stocking the ranges of the Plains and the Southwest than the many thousands of Longhorns driven from Texas He emphasizes the interregional aspect of beef production and the unique role played by Kansas On the threshold of the Great Plains Kansas received cattle from both the Midwest and the Southwest for many years upbred cattle moving South and stocker cattle moving from the South or Southwest into Kansas for additional maturing before being shipped to the Midwest for fattening or for slaughter Wood also looks closely at the relationship of cattlemen to government and to big business railroads stockyards and packers He sees the cattlemen as agricultural producers and business managers rather than as romantic self reliant giants of the earth Taking issue with the popular myth that cattlemen were and are ruggedly individualistic and disdainful of outside help Wood discusses the cattlemen s repeated demands for aid especially during the 1930s Included in the book is the history of the Kansas Livestock Association which the author credits as being one of the most significant stock associations in the West during this century Wood sets the KLA s growth within the context of the larger organizational revolution in the nation s business world A

concluding chapter surveys major developments after World War II including the development of feedlots and irrigation the new cross breeding decentralization of packers and the advent of trucking to replace railroads There has been scant information on these topics in the general literature of the Great Plains *The Atlas of U.S. and Canadian Environmental History* Char Miller,2003-08-08 This visually dynamic historical atlas chronologically covers American environmental history through the use of four color maps photos and diagrams and in written entries from well known scholars Organized into seven categories each chapter covers agriculture wildlife and forestry land use and management technology and industry polluti **The Taft Ranch** A. Ray Stephens,2014-03-07 For fifty years the progressive Coleman Fulton Pasture Company popularly known as the Taft Ranch led in the development of South Texas and in the early twentieth century achieved national and international reputes for its contributions to agriculture The story of the ranch reaches its climax as the firm is absorbed into the community growing up around it the same community the ranch had nurtured to an unprecedented prosperity In 1961 A Ray Stephens visited Taft Texas and received permission to use the dust covered records which for thirty years had been closed to historians These records plus the valuable supplementary material in the Fulton Collection at the University of Texas have enabled the author to tell the complete story of the ranch from its inception in 1880 to its dissolution in 1930 In 1880 with a fifty year charter the Coleman Fulton Pasture Company was legally born as a private corporation For the duration of its history this company aided the advancement of South Texas through effective utilization of the fertile land through development of agriculture and related industries and through encouragement of settlers and curious visitors to the Coastal Bend region Its history is a long determined fight against severe drought cattle disease and financial insolvency Guided by farsighted men who believed in experimentation in agriculture and who also promoted the establishment of stores schools colleges churches and industrial plants the company not only survived but prospered and by 1920 its owners could survey their vast properties with well earned satisfaction The struggling cattle firm of 1880 had expanded into a multi interest profitable corporation that had established and supervised most of the industries in Taft Texas Stephens well documented 1964 study had been long needed During the three decades preceding it the ranch had been well nigh forgotten only the handful of people then still living who had worked on the ranch had kept its memory fresh while the voluminous company records remained inaccessible The author supplemented his study of company records and newspapers with archival material government records and information obtained during hours of interviewing His book will insure for the Taft Ranch its deservedly prominent position in Texas history The lively introduction was written by Joe B Frantz 1917 1993 who in his role of Professor of History at the University of Texas encouraged the study and watched its development
