Teaching Art Rhian Brynjolson, 2010 This resource is written for classroom teachers, art education specialists, childcare workers, artists working in schools, parents who home school their children, and school administrators. It can also be used as a university textbook for Education students. The book provides a framework for teaching art in a way that is integrated with regular classroom practice and mindful of current art curriculum outcomes. Although the book focuses on art for primary and middle school students from pre-school to grade eight, *Teaching Art* is also useful to art specialists at the high school level who are looking for new strategies or project ideas to add to their established secondary programs. Revised and expanded from the author's previous resource *Art Illustration*, this resource integrates new developments in art education.

Inventing Edward Lear Sara Lodge, 2018-11-30 *Inventing Edward Lear* is an exceptional, valuable original study presenting new materials on aspects of Lear's life and work. Jenny Uglow, author of *Mr Lear* and *The Lunar Men*, wrote some of the best-loved poems in English, including *The Owl* and *The Pussycat*, but the father of nonsense was far more than a poet. He was a naturalist, a brilliant landscape painter, an experimental travel writer, and an accomplished composer. Sara Lodge presents the fullest account yet of Lear's passionate engagement in the intellectual, social, and cultural life of his times. Lear had a difficult start in life. He was epileptic, asthmatic, and depressive, but even as a child, a consummate performer who projected himself into others' affections. He became, by John James Audubon's estimate, one of the greatest ornithological artists of the age. Queen Victoria, an admirer, chose him to be her painting teacher. He popularized the limerick, set Tennyson's verse to music, and opened fresh doors for children and adults to share fantasies of magical escape. Lodge draws on diaries, letters, and new archival sources to paint a vivid picture of Lear that explores his musical influences, his religious nonconformity, his relationship with the Pre-Raphaelite movement, and the connections between his scientific and artistic work. He invented himself as a character: awkward but funny, absurdly sympathetic. In Lodge's hands, Lear emerges as a dynamic and irreverent polymath whose conversation continues to draw us in. *Inventing Edward Lear* is an original and moving account of one of the most intriguing and creative of all Victorians.

Ways of Writing with Young Kids Sharon A. Edwards, Robert W. Maloy, Ruth-Ellen Verock-O'Loughlin, 2003 *Ways of Writing with Young Kids* presents ideas and strategies for teaching children how to write creatively in fiction, nonfiction, and poetry, conventionally using standard spelling, punctuation, and sentence structures, and confidently as they learn the roles and rules of written language. *Ways of Writing with Young Kids* is uniquely organized in twenty-three ways of writing that expand beyond one particular area. Giving readers a new perspective, the authors adhere to a unique and easy-to-follow system: The Five C's of Children's Writing Coaching, Creativity, Conventions, Choice, and Confidence. Written in an easy-to-read format, the book explains writing ideas and strategies clearly and concisely in an open-ended, easy-to-do, and engaging style that offers readers lots of flexibility of how to use the activities with their children.

Anxiety in Modern Scandinavian Literature
Markus Floris Christensen, 2024-06-17 This book explores how states and traits of anxiety are reflected in the style and structure of certain works by three key figures of modern Scandinavian literature August Strindberg Inger Christensen Karl Ove Knausgård On the basis of particular literary analyses it develops a literary phenomenology of anxiety as well as a hermeneutical theory of anxiety that considers the ways in which anxiety has been represented in various genres of modern Scandinavian literature from the last three centuries Whereas the former uncovers the ways in which anxiety is reflected in literary form and style the latter interprets the relationship between author text and reader as well as the effects of genre As Strindberg's works capture the tensions between existential indeterminism and naturalistic determinism and make way for negative aesthetic pleasure poetry such as Christensen's challenges scientific and psychiatric conceptions of anxiety and instigates a change in how humans conduct themselves in relation to the experience of anxiety Finally Knausgård's autofictive work gives voice to the socially anxious self of late modernity and incites moments of self intensification and reorganizes the fragile self of contemporary society In this way it becomes clear that literature is an outstanding archive of representations and transformations in the cultural history of anxiety Literature is an aesthetic medium of expression and reflection that represents anxiety in a number of ways that may enrich our understanding of anxiety today This work thus contributes to cultural and literary scholarship that contests the subjugation of anxiety to a scientific world view and aims to expose the imaginative and creative dimensions of anxiety that are often ignored in contemporary public discourse and policy
