Shelter Women And Development First And Third World Perspectives:

The Feminization of Development Processes in Africa James S. Etim, Valentine U. James, 1999-04-30 Women have historically provided vision and leadership to African countries and are now being recognized as pivotal to the overall sustainable development of Africa In many cases however this recognition has not resulted in the empowerment of African women who still face great discrimination This edited volume explores the contributions women have made to all phases of development planning design construction implementation and operation and the obstacles they have had to face Besides analyzing the current situation and identifying trends the contributors also make recommendations for policy reform and for future planning

Shelter, Women, and Development Hemalata C. Dandekar, 1993 [Women in Human Settlements Development](#), 1995

Housing and Finance in Developing Countries Kavita Datta, Gareth Jones, 2012-10-12 This book explores the linkages between formal and informal housing finance drawing upon the lessons of NGO and micro finance practices Both public and private formal finance institutions have experienced great difficulty in lending below a middle income client group and are often reluctant to lend for the purpose of housing at all This failure of formal finance to filter down to low income households and in particular to women has led various NGOs and community groups to create and adopt innovative finance programmes such as informal savings banks and credit rotating schemes The authors critically assess the impact of these schemes and evaluate links between gender housing and finance

Gender Struggles Constance L. Mui, Julien S. Murphy, 2002 Contemporary feminist theory and postmodernism have left significant marks on how we think about practical matters most notably the old and new forms of gender struggles that many women confront in their daily lives The essays collected in Gender Struggles are designed to highlight those influences by addressing the following questions What is practical feminism in a postmodern world How does rethinking the nature and boundaries of philosophy affect the way we understand practical issues that we confront daily What new forms of freedom autonomy subjectivity social welfare motherhood public and private space and political resistance have emerged from this new philosophical sense Together the sixteen essays in this volume represent many different voices of feminists who boldly take up familiar everyday concerns from unorthodox vantage points within new conceptual and theoretical frameworks The essays in Gender Struggles address a wide range of issues in gender struggles from the more familiar ones that for the last thirty years have been the mainstay of feminist scholarship such as motherhood beauty and sexual violence to new topics inspired by post industrialization and multiculturalism such as the welfare state cyberspace hate speech and queer politics and finally to topics that traditionally have not been seen as appropriate subjects for philosophizing such as adoption care work and the home Incorporating the latest most cutting edge material on feminism this volume aims at reaching a broad spectrum of readers by connecting postmodern feminist theory with concrete issues that are practical and relevant to their daily lives and experiences

Homelessness Patricia Kennett, Alex Marsh, 1999-09-15 Analysis that links the phenomenon of homelessness to wider

debates about the changing social and economic environment remains relatively underdeveloped This important book brings together contemporary debates and empirical research in order to explore the nature experience and impact of social change in the context of risks and uncertainties *Women of a Lesser Cost* Sylvia Chant, Cathy McIlwaine, 1995-07-20 A n accessible

Conceptualising Home Lorna Fox O'Mahony, 2006-12-01 It is difficult to overstate the everyday importance of home in law Home provides the backdrop for our lives and is often the scene or the subject of legal disputes In addition in recent decades there has been growing academic interest in the meaning of home which has prompted empirical studies and theoretical exploration in a wide range of disciplines Yet while the authenticity of home as a social psychological cultural and emotional phenomenon has been recognised in other disciplines it has not penetrated the legal domain where the proposition that home can encapsulate meanings beyond the physical structure of the house or the capital value it represents continues to present conceptual difficulties This book focuses on the competing interests of creditors who lend money against the security of the property and the occupiers who dwell in the property in the context of possession actions By mapping the concept of home as it has evolved in other disciplines against existing legal frameworks *Conceptualising Home* examines the possibilities for developing a coherent concept of home in law **Redesigning The American Dream Revised And**

Updated Dolores Hayden, 2002-09-03 In a provocative critique of American housing patterns that perpetuate Victorian stereotypes of the home as woman s place and the city as man s world urban historian and architect Dolores Hayden tallies the personal and social costs that an architecture of gender creates for the two earner family the single parent family and single people She traces three models of home in historical perspective to document innovative alternatives for reconstructing neighborhoods *International Encyclopedia of Human Geography*, 2009-07-16 The International
