Clark, 1993 In the analytical introduction to the calendar the authors discuss the physical characteristics and locations of the theatres their acoustics and capacities the Dublin theatre season composition administration and management of the companies of performers management styles and techniques actors contractual arrangements conditions and salaries ticket prices benefit and command performances the composition of the repertory costumes scenery wardrobe and machinery and much else Special attention is paid to areas that have been neglected by previous histories such as dance and dancers and prologues and epilogues **The Stage** Alfred Bunn, 1840 *Roach's New and Complete History of the Stage. ... intended as a companion to Roach's Authentic Memoirs of the Green Room* John ROACH (Publisher.), 1796

Some Account of the English Stage John Genest, 1832 **Stage Mothers** Laura Engel, Elaine M. McGirr, 2014-11-06 Stage Mothers explores the connections between motherhood and the theater both on and off stage throughout the long eighteenth century Although the realities of eighteenth century motherhood and representations of maternity have recently been investigated in relation to the novel social history and political economy the idea of motherhood and its connection to the theatre as a professional material literary and cultural site has received little critical attention The essays in this volume spanning the period from the Restoration to Regency address these forgotten maternal narratives focusing on the representation of motherhood as the defining female role the interplay between an actress's celebrity persona and her chosen roles the performative balance between the cults of maternity and that of the passionate actress and tensions between sex and maternity and or maternity and public authority In examining the overlaps and disconnections between representations and realities of maternity in the long eighteenth century and by looking at written received visual and performed records of motherhood Stage Mothers makes an important contribution to debates central to eighteenth century cultural history *The London Stage 1890-1959* J. P. Wearing, 2014-10-30 Theatre in London has celebrated a rich and influential history and in 1976 the first volume of J P Wearing's reference series provided researchers with an indispensable resource of these productions In the decades since the original calendars were produced several research aids have become available notably various reference works and the digitization of important newspapers and relevant periodicals Spanning 1890 through the 1950s all seven volumes of The London Stage series have been revised corrected and expanded In addition approximately 20 percent of the material in particular information about adaptations and translations plot sources and comment information is new Although each volume contains indexes specific to that decade The London Stage 1890 1959 Accumulated Indexes combines all of the indexes into one comprehensive resource for more efficient research For example those wishing to locate all the references to a particular actor play or theatre whose history spanned more than one decade will find all of the entries listed in this set This set includes four key indexes general genre theatre and title The general

index consists of numerous subject entries on such topics as acting audiences censorship costumes managers performers prompters staging and ticket prices With approximately 40 000 people listed this is the largest single source of theatrical personnel on the London stage during this period The genre index comprises all entries for production types including comedies dramas farces and tragedies as well as ballets operas adaptations foreign works pantomimes and translations The theatre index features every building to stage a production from the Adelphi to Wyndham s The title index cites 14 000 productions identifying every work produced on stage from Domestic Economy in January 1890 to When in Rome in December 1959 As a supplement to the individual volumes The London Stage 1890 1959 Accumulated Indexes will be of value to scholars theatrical personnel librarians writers journalists and historians *Some Account of the English Stage, from the Restoration in 1660 to 1830* John Genest, 1832 **The stage** Frederick Brigham De Berard, 1902
