Shia Islam From Religion To Revolution Princeton Series On The Middle East:

Shi'i Islam Heinz Halm,1997 **Shi'a Islam** Heinz Halm,1997 Attempts to explain the bewildering events in the Middle East *An Enchanted Modern* Lara Deeb,2011-06-27 Based on two years of ethnographic research in the southern suburbs of Beirut *An Enchanted Modern* demonstrates that Islam and modernity are not merely compatible but actually go hand in hand This eloquent ethnographic portrayal of an Islamic community articulates how an alternative modernity and specifically an enchanted modernity may be constructed by Shi I Muslims who consider themselves simultaneously deeply modern cosmopolitan and pious In this depiction of a Shi I Muslim community in Beirut Deeb examines the ways that individual and collective expressions and understandings of piety have been debated contested and reformulated Women take center stage in this process a result of their visibility both within the community and in relation to Western ideas that link the status of women to modernity By emphasizing the ways notions of modernity and piety are lived debated and shaped by everyday Islamists this book underscores the inseparability of piety and politics in the lives of pious Muslims **Book Review of Shi'a Islam** Sophie Duhnkrack,2009-06-12 Thesis M A from the year 2009 in the subject Theology Comparative Religion Studies grade 96 Ben Gurion University course Formation of Islam language English abstract Professor Heinz Halm s work *Shi a Islam From Religion to Revolution* deals with the origins and developments of Shi ism in general and the Shi i history of Iran with special attention paid to the Iranian Revolution which gave rise to the Islamic Republic of Iran Professor Halm s study aims to synthesize these two major thematic blocks which are located in quite distant historical periods Within the analysis of Shi ism the author depicts the major rituals and their history utilizing travelogues and descriptions of majorly European observers He compares and examines historical processes which led to the revolution as well as the revolution itself and its outcome on the basis of previously described characteristics of Shi ism Firstly this article will give a short presentation of the book s structure and a summary of its contents Further on it will compare the work with Jonathan Berkey s *The Formation of Islam* and Ervand Abrahamian s *Khomeinism Essays of the Islamic Republic of Iran* in order to examine different approaches and interpretations of various issues covered by all three works Successively the article will focus on the methodology the use of sources and the style of *Shi a Islam* and it will conclude with some criticism and suggestions for further reading in this field *State, Religion, and Revolution in Iran, 1796 to the Present* B. Moazami,2013-11-07 Two basic assumptions have shaped understanding of recent Iranian history One is that Shi ism is an integral part of Iran s religious and cultural landscape The other is that the ulama religious scholars have always played a crucial role This book challenges these assumptions and constructs a new synthesis of the history of state and religion in Iran from 1796 to the present while challenging existing theories of large scale political transformation Arguing that the 1979 revolution has not ended Behrooz Moazami relates political and religious transformations in Iran to the larger instability of the Middle East region and concludes that turmoil will continue until a new regional configuration evolves **Shari'a** Wael B. Hallaq,2009-04-16 In

recent years Islamic law or Shari'a has been appropriated as a tool of modernity in the Muslim world and in the West and has become highly politicised in consequence Wael Hallaq's magisterial overview of Shari'a sets the record straight by examining the doctrines and practices of Islamic law within the context of its history and by showing how it functioned within pre-modern Islamic societies as a moral imperative In so doing Hallaq takes the reader on an epic journey tracing the history of Islamic law from its beginnings in seventh century Arabia through its development and transformation under the Ottomans and across lands as diverse as India Africa and South East Asia to the present In a remarkably fluent narrative the author unravels the complexities of his subject to reveal a love and deep knowledge of the law which will inform engage and challenge the reader

The History of Islamic Theology from Muhammad to the Present Tilman Nagel, 2000 This work presents Muslim beliefs about God's relationship to humans by drawing on relevant Islamic sources In connection with the social and political history of Islam the reader is introduced to the ideas and concepts of Islamic theologians

Islam and Revolution in the Middle East Henry Munson, 1988-01-01 Analyzes the role of Islam in Middle Eastern society and politics addresses the differences between the Sunni and Shi'i sects and discusses why an Islamic revolution occurred only in Iran

Christian-Muslim Relations in Syria Andrew W. H. Ashdown, 2020-11-25 Offering an authoritative study of the plural religious landscape in modern Syria and of the diverse Christian and Muslim communities that have cohabited the country for centuries this volume considers a wide range of cultural religious and political issues that have impacted the interreligious dynamic putting them in their local and wider context Combining fieldwork undertaken within government held areas during the Syrian conflict with critical historical and Christian theological reflection this research makes a significant contribution to understanding Syria's diverse religious landscape and the multi-layered expressions of Christian-Muslim relations It discusses the concept of sectarianism and how communal dynamics are crucial to understanding Syrian society The complex wider issues that underlie the relationship are examined including the roles of culture and religious leadership and it questions whether the analytical concept of sectarianism is adequate to describe the complex communal frameworks in the Middle Eastern context Finally the study examines the contributions of contemporary Eastern Christian leaders to interreligious discourse concluding that the theology and spirituality of Eastern Christianity inhabiting the same cultural environment as Islam is uniquely placed to play a major role in interreligious dialogue and in peace making The book offers an original contribution to knowledge and understanding of the changing Christian-Muslim dynamic in Syria and the region It should be a key resource to students scholars and readers interested in religion current affairs and the Middle East

The Turban for the Crown Said Amir Arjomand, 1988 Arjomand's *The Turban for the Crown* provides a thoughtful painstakingly researched and intelligible account of the 1979 Islamic revolution in Iran which reveals the importance of this singular event for our understanding of revolutions Providing crucial historical background Arjomand examines both the structure of authority in Shi'ism one of the two main branches of Islam and the impact of the modern state on Iranian society two factors

essential to the comprehension of the revolution and its aftermath
