Shining Water:

The Long-shining Waters Danielle Sosin, 2011 Lake Superior the north country the great fresh water expanse Frigid Lethal Wildly beautiful The Long Shining Waters gives us three stories whose characters are separated by centuries and circumstance yet connected across time by a shared geography In 1622 Grey Rabbit an Ojibwe woman a mother and wife struggles to understand a dream life that has taken on fearful dimensions As she and her family confront the hardship of living near the big water her psyche and her world edge toward irreversible change In 1902 Berit and Gunnar a Norwegian fishing couple also live on the lake Berit is unable to conceive and the lake anchors her isolated life testing the limits of her endurance and spirit And in 2000 when Nora a seasoned bar owner loses her job and is faced with an open ended future she is drawn reluctantly into a road trip around the great lake As these narratives unfold and overlap with the mesmerizing rhythm of waves a fourth mysterious character gradually comes into stark relief Rich in historical detail and universal in its exploration of the human desire for meaning when faced with uncertainty The Long Shining Waters is an unforgettable and singular debut Titles and Awards MILKWEED NATIONAL FICTION PRIZE WINNER INDIE HEARTLAND BESTSELLER ONE BOOK SOUTH DAKOTA SELECTION MINNESOTA BOOK AWARD FINALIST MIDWEST BOOKSELLERS BOOK AWARD FINALIST

Restoring the Shining Waters David Brooks, 2015-08-25 No sooner had the EPA established the Superfund program in 1980 to clean up the nation's toxic waste dumps and other abandoned hazardous waste sites than a little Montana town found itself topping the new program's National Priority List Milltown a place too small to warrant a listing in the U S Census sat alongside a modest hydroelectric dam at the confluence of the Clark Fork and Blackfoot Rivers For three quarters of a century arsenic laced waste from some of the world's largest copper mining operations had accumulated behind the dam Soon Milltown became the site of Superfund's first dam removal and watershed restoration marking a turning point in U S environmental history The story of this dramatic shift is the tale of individuals rallying to reclaim a place they valued beyond its utility In *Restoring the Shining Waters* David Brooks gives an intimate account of how local citizens homeowners university scientists county health officials grassroots environmentalists business leaders and thousands of engaged residents brought about the removal of Milltown Dam Interviews with townspeople outside environmentalists mining executives and federal officials reveal how the everyday actions of individuals got the dam removed and in the process pushed Superfund to allow more public participation in decision making and to emphasize restoration over containment of polluted environments A federal program designed to deal with the toxic legacies of industrialization thus became a starting point for restoring America's most damaged environments largely through the efforts of local communities With curiosity conviction and a strong sense of place the small town of Milltown helped restore an iconic western river valley and in doing so shaped the history of Superfund and modern environmentalism
