Shipping Company Strategies: Global Management Under Turbulent Conditions Peter Lorange, 2005

Shipping Strategy Peter Lorange, 2009-07-23 The shipping industry has an impact on each and every one of us every day. Ships transport the food we eat, the clothes we wear, the cars we drive, the materials used to build our homes, and the fuel that heats them. Yet traditional shipping companies, ones that combine various aspects of shipping under one organizational roof, are on the decline. They are gradually being replaced by new, more specialized companies with more strategic clarity and managerial focus. In *Shipping Strategy*, Peter Lorange draws on his extensive experience in the shipping industry to show how companies can adapt to the fast-moving and volatile world of maritime business by devising strategies for future success, including specialization and innovation.

Managing Complexity in Global Organizations Ulrich Steger, Wolfgang Amann, Martha L. Maznevski, 2007-04-04 This book delivers new IMD insights on an emerging challenge: how to deal with overwhelming complexity. Global organizations face a complex decision-making environment. On one side, diversity of cultures, customers, competitors, and regulations creates complexity; on the other, competitive pressures cause expanding countries to extract more synergies across products and regions. In such a climate, a new way of thinking, acting, and organizing is needed, beyond the familiar control mindset. Drawing together insights from across the expert faculty, *Managing Complexity in the Global Organization* presents IMD's framework on how to understand complexity and its four key drivers: diversity, interdependence, ambiguity, and flux, along with solutions on specific issues in a variety of functions, industries, and markets. The focus is on providing practical solutions based on real-life examples.

Leading in Turbulent Times Peter Lorange, 2010-12-16 As a business academic, leading some of the world's key business schools, head of a shipping company, and board member for several multinational companies, Peter draws on his own experiences and those of other CEOs interviewed to identify the type of organization leaders must create in order to meet the challenges they face in these turbulent times.
