Shipping Developments In Far East Asia:

Shipping Developments in Far East Asia Tae-Woo Lee, 1996 An original contribution to the appreciation and understanding of the development of Korean shipping and how it affects and is indeed affected by the intricate blend of ongoing economic political geographical and social changes within the Asian Pacific region Fleet Development and the Control of Shipping in Southeast Asia Mary R. Brooks, 1985 This occasional paper focuses on international shipping in Southeast Asia reviewing fleet ownership and control in ASEAN and examining the extent of public and private sector ownership in the ASEAN fleets Dynamic Shipping and Port Development in the Globalized Economy Paul Yae-Woo Lee, Kevin Cullinane, 2016-01-26 This two volume book presents an in depth analysis of many of the most important issues facing today's shipping and port sectors Volume 2 of Dynamic Shipping and Port Development in the Globalized Economy focuses on the emerging trends in ports **The Economic Development of South-East Asia** C. D. Cowan, 2012 First published in 1964 The Economic Development of South East Asia Studies in economic history and political economy contains eight papers originally written for a study group at the School of Oriental and African Studies in London The papers edited by Professor C D Cowan are written against a background of economic underdevelopment in large parts of Asia Economic problems increasingly plagued the governments of Asia after the Second World War and while Western governments were willing to help foster economic development relations with Asian governments were somewhat hindered by the heritage of their colonial past Problems also related to the growth of traditional trading ports and export crops and to the importation of colonial regimes western funds and skills in the nineteenth century Such developments come under the loosely generalised concept of imperialism with its strongly emotional overtones whose use impedes the objective assessment and analysis of facts While we understand a good deal about conditions of economic growth in the West much of what has fostered or retarded growth in other parts of the world remains less clear **Strategies for Asia-Pacific Shipping** Jeff Hawkins, Richard Gray, 2019-07-30 This title was first published in 2000 This text focuses on one geographical and economical area the Asia Pacific region on one type of decision makers commercial shipowners and on one type of business strategy corporate level strategy to show economic change and how organizations manage that change This book discusses the challenges that shipowners face to take advantage of that growth It also looks at the lack of information on strategic decision making that could assist the shipowners in taking advantage of the economic situation The chapters cover the types of business strategies available and how to select the criteria for selecting one of those strategies **Danger, Development and Legitimacy in East Asian Maritime Politics** Christian Wirth, 2017-11-15 Grounded in extensive empirical research Danger Development and Legitimacy in East Asian Maritime Politics addresses the major issues of geopolitics in the region that have been and will continue to shape the international politics of the Asia Pacific for years to come Covering the nation states of China Japan and South Korea it includes an examination of the key island disputes as well as analysis of the North

Korea South Korea clashes in the Yellow Sea controversies in Japan's relations with both Koreas and the so called history disputes including recognition of World War II atrocities across the region In doing so this book explores a range of themes from the ecological environment to the globalized nature of shipping and therein links the East Asian maritime sphere directly to the dynamics and developments in the domestic politics of each country Thus it serves to demonstrate how several controversial debates in the international politics of the Asia Pacific are ultimately and inextricably intertwined A timely contribution that furthers our understanding of contemporary politics of the Asia Pacific this book will be of great interest to students and scholars of Asian politics international relations and the Asia Pacific region in general **Globalisation,**

Policy and Shipping Selkou, Evangelia, Roe, Michael, 2022-10-07 Thoroughly revised and updated this second edition provides a contemporary analysis of policy and governance developments in the shipping sector across the late twentieth and early twenty first centuries It particularly focuses on developments in the EU and the continued intensification of globalisation sustainability and social awareness **Maritime Trade and State Development in Early Southeast Asia**

Kenneth R. Hall, 2019-03-31 This book brings something new in both dimension and detail to our understanding of Southeast Asia from the first to the fourteenth centuries It puts Southeast Asia in the context of the international trade that stretched from Rome to China and draws upon a wide range of recent scholarship in history and the social sciences to redefine the role that this trade played in the evolution of the classical states of Southeast Asia By examining the sources of Southeast Asia's classical era with the tools of modern economic history the author shows that well developed socioeconomic and political networks existed in Southeast Asia before significant foreign economic penetration took place With the growth of interest in Southeast Asian commodities and the refocusing of the major East West commercial routes through the region during the early centuries of the Christian era internal conditions within Southeast Asia adjusted to accommodate increased external contacts Hall takes the view that Southeast Asia's response to international trade was a reflection of preexisting patterns of trade and statecraft In the forty years since Coede's monumental work *The Indianized States of Southeast Asia* was published a great deal of archaeological and epigraphical work has been done and new interpretations advanced By integrating new theoretical constructs recent archaeological finds and interpretations and his own informed reading and research Kenneth R. Hall puts his historical narrative on a large canvas and treats areas not previously brought together for discussion along comparative lines Like Coede's work his book will be important as a basic text for the teaching of early Southeast Asian history **Advances in Maritime Logistics and Supply Chain Systems** Ek Peng Chew, Loo Hay Lee, Loon Ching Tang, 2011
