The Nautical Gazette ,1925 *The Nautical Magazine* ,1870 *Writings of David Thompson, Volume 1* David Thompson,William E. Moreau,2009-09-01 David Thompson s Travels is one of the finest early expressions of the Canadian experience The work is not only the account of a remarkable life in the fur trade but an extended meditation on the land and Native peoples of western North America The tale spans the years 1784 to 1807 and extends from the Great Lakes to the Rockies from Athabasca to Missouri A distinguished literary work the Travels alternates between the expository prose of the scientist and the vivid language of the storyteller animated throughout by a restless spirit of inquiry and sense of wonder In the first volume of an ambitious three volume project that will finally bring all of Thompson s writings together editor William Moreau presents the Travels narrative as it existed in 1850 when the author was forced to abandon his work Accompanying Moreau s transcription is an introductory essay and a textual introduction extensive critical annotations historical and modern maps and a biographical appendix The definitive collection of Thompson s works The Writings of David Thompson will bring one of North American s most important early travellers and surveyors and his world to a whole new generation of readers *Navy & Army Illustrated* ,1895 **Climate since AD 1500** Raymond S. Cusick,2021-01-19 In this fascinating collection of essays an international group of scholars explores the sonic consequences of transcultural contact in the early modern period They examine how cultural configurations of sound impacted communication comprehension and the categorisation of people Addressing questions of identity difference sound and subjectivity in global early modernity these authors share the conviction that the body itself is the most intimate of contact zones and that the culturally contingent systems by which sounds made sense could be foreign to early modern listeners and to present day scholars Drawing on a global range of archival evidence from New France and New Spain to the slave ships of the Middle Passage to China Europe and the Mediterranean court environment this collection challenges the privileged position of European acoustical practices within the discipline of global historical musicology The discussion of Black and non European experiences demonstrates how the production of the canon in the cosmopolitan centres of colonial empires was underpinned by processes of human exploitation and extraction of resources As such this text is a timely response to calls within the discipline to decolonise music history and to contextualise the canonical works of the European past This volume is accessible to a wide and interdisciplinary audience not only within musicology but also to those interested in early modern
