For Want of a Lighthouse Marc Seguin,2015-04-25

No safe harbours for steamboats or sailing vessels could be found along an isolated 70 mile stretch of eastern Lake Ontario dominated by the irregular shaped Prince Edward County peninsula Frequent storms rocky reefs and sandy shoals were among the many dangers facing 19th century mariners So many shipwrecks mark one narrow and shallow underwater ridge in the region that it became known as the graveyard of Lake Ontario It was on these shores from Presquile Bay to Kingston harbour and along the Bay of Quinte that a network of more than forty lighthouses and light towers was built between 1828 and 1914 FOR WANT OF A LIGHTHOUSE presents a sweeping look at the social and technological changes which marked the era and brings to life the people politics and hardships involved in the construction of these essential aids

to navigation Through the use of extensive archival material and more than 100 maps and photographs Marc Seguin documents the vital role these lighthouses played in the building of a nation There is now a race against time to save the few original towers that are still standing All profits from the sale of this book will be used to preserve these remaining lighthouses **"Time by Moments Steals Away"** Robert L. Root,1998 Ruth Edgerton Douglass s diary recounts her winter journey from Detroit to Wisconsin and then her life through autumn and into the following winter on Isle Royale where her husband had been hired to supervise a mining operation She shares something of the contrast between the city life she had known and the backwoods existence she came to lead with her husband **The Heroic Age of Diving** Jerry Kuntz,2016-02-09 A comprehensive history of the first three decades of underwater exploration in antebellum America Beginning in 1837 some of the most brilliant engineers of America s Industrial Revolution turned their attention to undersea technology Inventors developed practical hard helmet diving suits as well as new designs of submarines diving bells floating cranes and undersea explosives These innovations were used to clear shipping lanes harvest pearls mine gold and wage war All of these underwater technologies were brought together by entrepreneurs treasure hunters and daring divers in the 1850s to salvage three infamous shipwrecks on Lake Erie each of which had involved the loss of hundreds of lives as well as the worldly goods of the passengers The prospect of treasure combined with the national notoriety of these disasters soon attracted the attention of local adventurers and the country s leading divers and marine engineers In The Heroic Age of Diving Jerry Kuntz shares the fascinating stories of the pioneers of underwater invention and the brave divers who employed the new technologies as they raced with and against marine engineers to salvage the tragic wrecks of Lake Erie Jerry Kuntz has filled in a previously blank page in the story of diving and done it well The Heroic Age of Diving tells the story not only of the development of salvage technology but also the human side of this always dangerous and often deadly career This is not a tale for the faint of heart helmet squeeze is a gruesome fate but one well worth reading for those interested in early technology and the men brave or foolish enough to gamble their lives using it This book is a window on an unexplored and unexpected world and the author deserves great credit for bringing it back into the light Chuck Veit author of Raising Missouri John Gowen and the Salvage of the U S Steam Frigate Missouri 1843 1852 The Heroic Age of Diving is both very interesting and very important Having spent over twenty years researching and publishing general diving history I am confident that this book will fill an important gap in the nation s diving history Leslie Leaney Cofounder Historical Diving Society Michigan Genealogy Carol McGinnis,2005 This is one of the finest statewide sourcebooks ever published a remarkable compilation of sources and resources that are available to help researchers find their Michigan ancestors It identifies records on the state and regional level and then the county level providing details of vital records court and land records military records newspapers and census records as well as the holdings of the various societies and institutions whose resources and facilities support the special needs of the genealogist County by county it lists the names addresses
