The Shockwave Rider John Brunner, 2014-04-01 In a world drowning in data a fugitive tries to outrun the forces that want to reprogram him in this smart edgy novel by a Hugo Award winning author Constantly shifting his identity among a population choking on information innovation and novelty Nickie Haflinger is a most dangerous outlaw yet he doesn't even appear to exist As global society falls apart in all directions with corporate power run amok and personal freedom surrendered to computers and bureaucrats Haflinger is caught and about to be reprogrammed Now he has to try to escape once again defy the government and turn the tide of organizational destruction in this visionary science fiction novel by the author of *The Sheep Look Up* and *Stand on Zanzibar* Brunner writes about the future as if he and the reader were already living in it The New York Times Book Review When John Brunner first told me of his intention to write the book I was fascinated but I wondered whether he or anyone could bring it off Bring it off he has with cool brilliance A hero with transient personalities animals with souls think tanks and survival communities fuse to form a future so plausibly alive it as twitched at me ever since Alvin Toffler author of *Future Shock* One of the most important science fiction authors Brunner held a mirror up to reflect our foibles because he wanted to save us from ourselves SF Site

The Posthuman Condition Kasper Lippert-Rasmussen, Mads Rosendahl Thomsen, Jacob Wamberg, 2012-05-10 If biotechnology can be used to upgrade humans physically and mentally should it be used at all And if so to what extent How will biotechnology affect societal cohesion Can the development be controlled or is this a Pandora's box that should remain closed These are but a few of the perplex questions facing scientists as a result of the increasing ability of technology to change biology and in turn profoundly change human living conditions This development has created a new posthuman horizon that will influence contemporary life and politics in a number of ways The Posthuman Condition addresses the challenges of Imagining a society where the properties of humans have shifted radically Assessing the scope of deploying technologies that are already underway Basing decisions on an ethical foundation that does not entail a concept of human nature Ascertaining the types of political action that can and should be taken in the face of this situation The anthology brings together researchers from a wide range of disciplines biotechnology medicine ethics politics and aesthetics and among contributors are Francis Fukuyama Julian Savulescu Maxwell Mehlman John Harris and Chris Hables Gray

Manshape John Brunner, 2011-09-29 The interstellar Bridge System was the greatest invention in the long history of cosmic humanity Spread through dozens of planets men and their societies had drifted apart in isolation until the Bridge came to link together humanity's multifold worlds and had affirmed once more that all men were brothers and sisters under the skin But the far away world of Azreal was the exception the one dissident world that refused the Bridge It became the task of two agents a man and a woman to bring Azreal back into manshape unity to ferret out the hidden reasons for the stubborn refusal The problem with its perils and high risks was to involve more than just secrets for Manshape is John Brunner novel that deals with the very fabric of civilization **The**

Shockwave Riders John Brunner,1995-03-01 He was the most dangerous fugitive alive but he didn't exist Nickie Haflinger had lived a score of lifetimes but technically he didn't exist He was a fugitive from Tarnover the high powered government think tank that had educated him First he had broken his identity code then he escaped Now he had to find a way to restore sanity and personal freedom to the computerized masses and to save a world tottering on the brink of disaster He didn't care how he did it but the government did That's when his Tarnover teachers got him back in their labs and Nickie Haflinger was set up for a whole new education

I Speak for Earth John Brunner,2011-09-29 One citizen of your planet shall go to the capital of the Federation of Worlds He shall live there for thirty days If your representative can survive and demonstrate his ability to exist in a civilized society with creatures whose outward appearance and manner of thinking differ from his own you will pass the test You will be permitted to send your starships to other planets of the galaxy If he fails the test if prejudice fear intolerance or stupidity trip him up then you world will be sealed off from the stars for ever This was the ultimatum from space The task before the world then was who shall go What man or woman could be found to take this frightening test for the whole of humanity and be certain not to fail First published 1961

[Ticket To Ride](#) Patrick Hook,2019-07-16 Ticket To Ride takes you through the history of roller coasters from the first in seventeenth century St Petersburg to today's gigantic theme park attractions complete with a tour of the most hair raising and fantastic examples The adrenaline rush of a roller coaster ride provides its fans with a leg wobbling wave of euphoria and exhilaration unmatched by any other experience It takes a certain amount of courage or foolhardiness to climb onto a roller coaster but what a ride Fans travel the world to experience the latest and most gut wrenching rides and they have quite a selection to choose from Exactly who built the very first roller coasters is contentious but they are generally agreed to have appeared in seventeenth century St Petersburg where they were made of ice and wood accordingly nicknamed Russian Mountains Now a staple of amusement parks and theme parks the first patented roller coaster appeared in the first real theme park at famed Coney Island in 1884 It was created by Father of the Gravity Ride LaMarcus Adna Thompson an American inventor and amusement park pioneer His scenic railways were a sensation so much so that he opened six at Coney Island alone The first golden age of the roller coaster ended with the Great Depression in tandem with the decline of amusement parks in general A roller coaster revival did not begin until 1972 with the construction of The Racer at Kings Island Ohio This started the second golden age of the roller coaster and led in turn to the construction of rides like Rebel Yell at Kings Dominion Virginia and Thunder Road at Carowinds North and South Carolina In 1959 the first steel track roller coaster called Matterhorn Bobsleds appeared at Disneyland California leading the way with innovative loops and corkscrews Aficionados have their favorites some prefer steel roller coasters for their smoother ride and ability to turn their passengers upside down as they fly around the tracks Conversely others prefer the more old fashioned wooden roller coasters that rattle along and play with negative G forces to provide air time for their passengers Today there are numerous types of roller coasters which broadly divide into train type

The Stardroppers John Brunner, 2011-09-29

A stardropper got its name from the belief that the user was eavesdropping on the stars But that was only a guess nobody really knew what the instrument did The instrument itself made no sense scientifically A conventional earpiece an amplifier a power source all attached to a small vacuum box an alnico magnet and a calibrated tuner What you got from all this was some very extraordinary noises and the conviction that you were listening to beings from space and could almost understand what you were hearing What brought Special Agent Dan Cross into the stardropper problem was the carefully censored news that users of the instrument had begun to disappear They popped out of existence suddenly and the world s leaders began to suspect that somehow the fad had lit the fuse on a bomb that would either destroy the world or change it forever First published 1972
