*Rendezvous with Destiny* Michael Fullilove, 2013-07-03 The remarkable untold story of Franklin D. Roosevelt and the five extraordinary men he used to pull America into World War II. In the dark days between Hitler's invasion of Poland in September 1939 and Japan's attack on Pearl Harbor in December 1941, Franklin D. Roosevelt sent five remarkable men on dramatic and dangerous missions to Europe. The missions were highly unorthodox and they confounded and infuriated diplomats on both sides of the Atlantic. Their importance is little understood to this day. In fact, they were crucial to the course of the Second World War. The envoys were magnificent unforgettable characters. First off the mark was Sumner Welles, the chilly patrician under secretary of state, later ruined by his sexual misdemeanors, who was dispatched by FDR on a tour of European capitals in the spring of 1940. In summer of that year, after the fall of France, William Wild Bill Donovan, war hero and future spymaster, visited a lonely United Kingdom at the president's behest to determine whether she could hold out against the Nazis. Donovan's report helped convince FDR that Britain was worth backing. After he won an unprecedented third term in November 1940, Roosevelt threw a lifeline to the United Kingdom in the form of Lend Lease and dispatched three men to help secure it: Harry Hopkins, the frail social worker and presidential confidant, was sent to explain Lend Lease to Winston Churchill; Averell Harriman, a handsome ambitious railroad heir, served as FDR's man in London expediting Lend Lease aid and romancing Churchill's daughter-in-law; Roosevelt even put to work his rumpled charismatic opponent in the 1940 presidential election, Wendell Willkie, whose visit lifted British morale and won wary Americans over to the cause. Finally, in the aftermath of Germany's invasion of the Soviet Union, Hopkins returned to London to confer with Churchill and traveled to Moscow to meet with Joseph Stalin. This final mission gave Roosevelt the confidence to bet on the Soviet Union. The envoys' missions took them into the middle of the war and exposed them to the leading figures of the age. Taken together, they plot the arc of America's transformation from a divided and hesitant middle power into the global leader. At the center of everything, of course, was FDR himself, who moved his envoys around the globe with skill and panache. We often think of Harry S. Truman, George Marshall, Dean Acheson, and George F. Kennan as the authors of America's global primacy in the second half of the twentieth century. But all their achievements were enabled by the earlier work of Roosevelt and his representatives, who took the United States into the war and by defeating domestic isolationists and foreign enemies, opened the world. In these two years, America turned. FDR and his envoys were responsible for the turn. Drawing on vast archival research, *Rendezvous with Destiny* is narrative history at its most delightful, stirring, and important.

**American Women in a World at War** Judy Barrett Litoff, David Clayton Smith, 1997 This title brings together twenty-five writings by women who share their rich and varied World War II experiences, from serving in the military to working on the home front to preparing for the postwar world. By providing evidence of their active and resourceful roles in the war effort as workers, wives, and mothers, these women offer eloquent testimony that World War II was indeed everybody's war. Litoff and Smith combine pieces by well-known writers

such as Margaret Culkin Banning and Nancy Wilson Ross with important but largely forgotten personal accounts by ordinary women living in extraordinary times This volume is divided into the six sections listed below Preparing for War In the Military At Far Flung Fronts On the Home Front War Jobs Preparing for the Postwar World      **American Girls in Red Russia** Julia L. Mickenberg, 2017-04-25 If you were an independent adventurous liberated American woman in the 1920s or 1930s where might you have sought escape from the constraints and compromises of bourgeois living Paris and the Left Bank quickly come to mind But would you have ever thought of Russia and the wilds of Siberia This choice was not as unusual as it seems now As Julia L Mickenberg uncovers in *American Girls in Red Russia* there is a forgotten counterpoint to the story of the Lost Generation beginning in the late nineteenth century Russian revolutionary ideology attracted many women including suffragists reformers educators journalists and artists as well as curious travelers Some were famous like Isadora Duncan or Lillian Hellman some were committed radicals though more were just intrigued by the Soviet experiment But all came to Russia in search of social arrangements that would be more equitable just and satisfying And most in the end were disillusioned some by the mundane realities others by horrifying truths Mickenberg reveals the complex motives that drew American women to Russia as they sought models for a revolutionary new era in which women would be not merely independent of men but also equal builders of a new society Soviet women after all earned the right to vote in 1917 and they also had abortion rights property rights the right to divorce maternity benefits and state supported childcare Even women from Soviet national minorities many recently unveiled became public figures as African American and Jewish women noted Yet as Mickenberg's collective biography shows Russia turned out to be as much a grim commune as a utopia of freedom replete with economic social and sexual inequities *American Girls in Red Russia* recounts the experiences of women who saved starving children from the Russian famine worked on rural communes in Siberia wrote for Moscow or New York newspapers or performed on Soviet stages Mickenberg finally tells these forgotten stories full of hope and grave disappointments      **Observers from Abroad** Martin A. Miller, 2025-03-31 *Observers from Abroad* offers an examination of published and archival images of Soviet Russia providing a deeper understanding of the complexities and vicissitudes of its political culture The book argues that photography when accurately interpreted can be utilized as primary historical evidence that has the potential to both enhance and counter traditional verbal analysis Employing a number of images of the Soviet Union captured by gifted documentary photographers from the West who received visas to work in Moscow from the Bolshevik seizure of power in 1917 to the collapse of the USSR in 1991 the book also assesses the intentions of the photographers who acted as conscious observers capturing visual evidence under the restraining conditions of state surveillance Each chapter provides a closer look at the life and work of these photographers with a wealth of historical images and discussion Richly illustrated and engaging this volume will be ideal for students scholars and readers interested in Soviet history twentieth century history and the history of photography      **Stalin's Holy War** Steven Merritt Miner, 2003

This volume examines the complex and profound role of religion especially Russian Orthodoxy in the politics of Stalin's government during World War II. It demonstrates that Stalin decided to restore the church to prominence as a tool for restoring Soviet power to previously occupied areas.
