Shooting the Actor Simon Callow, 2015-03-10 When Simon Callow met the Yugoslav film director Dusan Makavejev to discuss his new film *Manifesto* they both greatly looked forward to working together Only months later the two were barely speaking A companion volume to *Being An Actor* *Shooting the Actor* is a funny and disastrous account of a film made in the former Yugoslavia together with new essays on film and film acting including Callow's work in *Amadeus* and *Four Weddings and a Funeral* *Shooting the Actor* reveals more about the process of filmmaking and the highly complex nature of the role of both actor and director than any formal guide could ever provide Screening Modernism András Bálint Kovács, 2008-09-15 Casting fresh light on the renowned productions of auteurs like Antonioni Fellini and Bresson and drawing out from the shadows a range of important but lesser known works *Screening Modernism* is the first comprehensive study of European art cinema's postwar heyday Spanning from the 1950s to the 1970s András Bálint Kovács's encyclopedic work argues that cinematic modernism was not a unified movement with a handful of styles and themes but rather a stunning range of variations on the core principles of modern art Illustrating how the concepts of modernism and the avant garde variously manifest themselves in film Kovács begins by tracing the emergence of art cinema as a historical category He then explains the main formal characteristics of modern styles and forms as well as their intellectual foundation Finally drawing on modernist theory and philosophy along the way he provides an innovative history of the evolution of modern European art cinema Exploring not only modernism's origins but also its stylistic thematic and cultural avatars *Screening Modernism* ultimately lays out creative new ways to think about the historical periods that comprise this golden age of film **Terror and Joy** Lorraine Mortimer, 2009 Dusan Makavejev is a filmmaker teacher and intellectual whose films intersect with major historical and political upheavals in Eastern Europe World War II the unification and breakup of Yugoslavia and the fall of

communism Subversive and moving his films remain touchstones for transcultural and political cinema Matching the intensity of the films Lorraine Mortimer takes a radically interdisciplinary approach in this first book length critical analysis of Makavejev s work Studies in contrasts Makavejev s films combine documentary and fiction tragedy and comedy Mortimer examines seven of his films made between 1965 and 1994 including Montenegro 1981 Sweet Movie 1974 and WR Mysteries of the Organism 1971 looking at them historically politically and aesthetically and highlighting their implications for the contemporary world Both Makavejev s films and Mortimer s scrutiny of them are haunted by the specter of apocalyptic revolutionary movements that sacrifice people and the planet in the name of ideologies and idealisms Mortimer argues that the aesthetic dimension is vital to our conception of old and new tribalisms and ultimately our understanding of being in the world *Plays International* ,1990 **British Book News** British Council,1992 Includes no 53a British wartime books for young people The Art and Craft of Motion Picture Editing Michael Hoggan,2021-12-22 This book explains the broader context of what the art and craft of motion picture editing entails framing the creative acts of editing within an overall view of the production process and requirements for effective storytelling This book offers real experiences and advice from seasoned editors on the editing process providing a detailed examination of filmmaking from the editor s point of view and exploring how best to cultivate creative relationships with other areas of production to form the final personality of the film Emphasizing both practicality and creativity industry veteran Michael Hoggan successfully bridges the gap between the mechanical skills of editing and the thought process behind these decisions While most books focus primarily on the mind of the creator this book explores the evolution of practices in film production and editing with respect to the ever changing expectations of the audience As the book demonstrates understanding editing from the audience s perspective is essential to any successful film This book will be of interest to post production students independent filmmakers film critics and agents with editing clients It is accompanied by a collection of rich digital materials including a glossary bibliography and more
