Shores Of Discovery How Expeditionaries Have Constructed The World:

Shores of Discovery Eric J. Leed, 1998-08-01 Explores the lives motives of those who have engaged in every conceivable kind of expedition military missionary commercial scientific even tourist Examines the bonds linking companies bands crews fleets of soldiers sailors missionaries merchants the causes inspiring them to leave home cross vast distances arrive in foreign lands Unearths the public private purposes served by expeditions from conquest religious conversion to pure fun escapism These sagas offer vital clues to our own time about how different nations cultures communicate across the boundaries of words Bibliography

Shores Of Discovery Eric J. Leed, 1995-11-02 Shores of Discovery explores the lives and motives of those who have engaged in every conceivable kind of expedition military missionary commercial scientific even tourist It examines the bonds linking companies and bands crews and fleets of soldiers sailors missionaries and merchants and the causes inspiring them to leave home cross vast distances and arrive in foreign lands Memorable in their own right as stories of human aspiration these sagas of attempts to go beyond the limits of the known offer vital clues to our own time about how different nations and cultures communicate across the boundaries of words Through the exchange of gods and goods and information through wordless gesture and the sharing of clothing through music and dance medicine and painting these voyagers have constructed the world BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

The Island of Lost Maps Miles Harvey, 2010-10-06 The Island of Lost Maps tells the story of a curious crime spree the theft of scores of valuable centuries old maps from some of the most prominent research libraries in the United States and Canada The perpetrator was Gilbert Joseph Bland Jr an enigmatic antiques dealer from South Florida whose cross country slash and dash operation had gone virtually undetected until he was caught in 1995 and was unmasked as the most prolific American map thief in history As Miles Harvey unravels the mystery of Bland s life he maps out the world of cartography and cartographic crime weaving together a fascinating story of exploration craftsmanship villainy and the lure of the unknown

The Humboldt Current Aaron Sachs, 2007-07-31 A masterly and beautifully written account of the impact of Alexander von Humboldt on nineteenth century American history and culture The naturalist and explorer Alexander von Humboldt 1769 1859 achieved unparalleled fame in his own time Today however he and his enormous legacy to American thought are virtually unknown In The Humboldt Current Aaron Sachs traces Humboldt s pervasive influence on American history through examining the work of four explorers J N Reynolds Clarence King George Wallace and John Muir who embraced Humboldt s idea of a chain of connection uniting all peoples and all environments A skillful blend of narrative and interpretation that also discusses Humboldt s influence on Emerson Whitman Thoreau Melville and Poe The Humboldt Current offers a colorful passionate and superbly written reinterpretation of nineteenth century American history

The Last Blank Spaces Dane Kennedy, 2013-03-01 The challenge of opening Africa and Australia to British imperial influence fell to a coterie of proto professional explorers who sought knowledge adventure and fame but often experienced confusion fear

and failure Kennedy follows the arc of these explorations from idea to practice intention to outcome myth to reality **The Great Encounter** Jayme A. Sokolow, 2016-07-08 Traditional histories of North and South America often leave the impression that Native American peoples had little impact on the colonies and empires established by Europeans after 1492 This groundbreaking study which spans more than 300 years demonstrates the agency of indigenous peoples in forging their own history and that of the Western Hemisphere By putting the story of the indigenous peoples and their encounters with Europeans at the center a new history of the New World emerges in which the Native Americans become vibrant and vitally important components of the British French Spanish and Portuguese empires In fact their presence was the single most important factor in the development of the colonial world By discussing the great encounter of peoples and cultures this book provides a valuable new perspective on the history of the Americas **The Cultural Construction of International Relations** B. Jahn, 2016-01-18 The discipline of international relations deals with the problem of culture by defining world politics as a state of nature yet it ignores the fact that the concept of the state is itself a cultural product This book uncovers the history of this idea revealing its origins in the European conquest of America its crucial role in the emergence of the Enlightenment world view and its continuing negative consequences for our attempts to understand world politics **The Cambridge History of Science: Volume 6, The Modern Biological and Earth Sciences** David C. Lindberg, Peter J. Bowler, Ronald L. Numbers, Roy Porter, 2003 This book in the highly respected Cambridge History of Science series is devoted to the history of the life and earth sciences since 1800 It provides comprehensive and authoritative surveys of historical thinking on major developments in these areas of science on the social and cultural milieus in which the knowledge was generated and on the wider impact of the major theoretical and practical innovations The articles are written by acknowledged experts who provide concise accounts of the latest historical thinking coupled with guides to the most important recent literature In addition to histories of traditional sciences the book covers the emergence of newer disciplines such as genetics biochemistry and geophysics The interaction of scientific techniques with their practical applications in areas such as medicine is a major focus of the book as is its coverage of controversial areas such as science and religion and environmentalism **Marketing Heritage** Yorke M. Rowan, Uzi Baram, 2004 Increasingly archaeological sites worldwide are being commodified for a growing tourism trade At best expansion of programs can aid in the protection and historic preservation of sites and strengthen community identities However unchecked commercial development may undermine the economic and cultural integrity of these same sites replacing local interests with corporate ones In this volume original case studies from well known sites in Cambodia Israel England Mexico and the United States addresses the complex interaction between archaeology and nationalistic political and commercial policies *Explorer Travellers and Adventure Tourism* Jennifer Laing, Warwick Frost, 2014-08-04 This book examines the nexus between exploring and tourism and argues that exploration travel based heavily on explorer narratives and the promises of personal challenges and change is a major trend

in future tourism In particular it analyses how romanticised myths of explorers form a foundation for how modern day tourists view travel and themselves Its scope ranges from the Golden Age of imperial explorers in the 19th and early 20th centuries through the growth of adventure and extreme tourism to possible future trends including space travel The volume should appeal to researchers and students across a variety of disciplines including tourism studies sociology geography and history
