not British history which concerns us and for that reason The narrative must not neglect the individual colonies From the end of the colonial period the dominant interest is the progress of events which have to do with the common cause of independence and after that with national development Much thought has been given to the proper distribution of emphasis between the various historical factors Political institutions are the most conscious expression of the national will They determine the form of the story which the historian has to tell But social and economic conditions and the actions of leading men give color and contour to the figure and decide whether it be attractive or unattractive vivid or unimpressive This volume contains at intervals summaries of the habits and social progress of the people while throughout it seeks to present the decisions of congress and administrations in the matters which relate to the most important phases of popular welfare It is believed that if well done it thus becomes in the most vital sense a social history My aim has been to lay the necessary foundation for those who wish to pursue further the subject of American history in whatever phase they may be interested About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
