the book the theory is applied on the characters of both Nadia and Vera to find out more about their different identities and search for possible reasons in their past The concept of collective and individual memory Assmann will play an important role to give possible reasons for their different perceptions of the past which thus lead to many conflicts throughout the novel Lewycka uses memory especially Nadia's and Vera's different perceptions of the past to determine the sisters identities which also serves as legitimization of their immigration to Great Britain Selected close readings will show how both sisters developed two different self concepts out of their memory and how this identification influences their attitude towards migration into a country
