Maritime South Haven ,2004 The period between 1900 and 1950 was a time of great change for the small lakeside village of South Haven During this pivotal era the town was transformed from a rough commercial port into a beautiful tourist attraction Although South Haven is now entirely a recreational harbor this compilation of archival photographs provides a glimpse of an earlier time when shipments of coal stone pig iron paper pulp and clay came to port instead of pleasure boaters Showcasing the remarkable photography of Roy S McCrimmon Maritime South Haven 1900 1950 documents South Haven s nautical heritage with images of large foreign freighters hardy fish tugs bustling passenger steamers carefree pleasure cruisers and sprightly sailboats *Great Lakes and Midwest Catalog* Partners Book Distributing,2005 Maritime Grand Haven Wallace K. Ewing,David H. Seibold,2006 Settlers arrived at the mouth of the Grand River on November 2 1834 Their community was christened Grand Haven as it offered a secure harbor As the logging industry grew shipping expanded and Grand Haven Harbor became especially busy during the financial boom and westward expansion that followed the Civil War Northwest Ottawa County became an established resort destination and passenger boats frequented the harbor as well Heavy traffic through Grand Haven caused concern about shipwrecks The first crew of lifesavers was formed in 1871 and soon joined the United States Lifesaving Service In 1915 the United States Lifesaving Service merged with the United States Coast Guard Grand Haven has long had a proud association with these dedicated crews and in 1998 the relationship was marked when Congress designated it Coast Guard City USA Mastering the Inland Seas Theodore J. Karamanski,Theodore Karamanski,2020-04-21 Theodore J Karamanski s sweeping maritime history demonstrates the far ranging impact that the tools and infrastructure developed for navigating the Great Lakes had on the national economies politics and environment of continental North America Synthesizing popular as well as original historical scholarship Karamanski weaves a colorful narrative illustrating how disparate private and government interests transformed these vast and dangerous waters into the largest inland water transportation system in the world Karamanski explores both the navigational and sailing tools of First Nations peoples and the dismissive and foolhardy attitude of early European maritime sailors He investigates the role played by commercial boats in the Underground Railroad as well as how the federal development of crucial navigational resources exacerbated sectionalism in the antebellum United States Ultimately Mastering the Inland Sea shows the undeniable environmental impact of technologies used by the modern commercial maritime industry This expansive story illuminates the symbiotic relationship between infrastructure investment in the region s interconnected waterways and North America s lasting economic and political development Subject Guide to Books in Print ,2001 Forthcoming Books Rose Army,2002 Who's who in the West ,1987 Who's who in Finance and Industry ,1973 Hampton Bays Geoffrey K.
