Monthly Bulletin St. Louis Public Library, 1929 Teachers bulletin vol 4 issued as part of v 23 no 9 Visualizing Haiti in U.S. Culture, 1910-1950 Lindsay J Twa, 2014-05-28 From the 1910s until the 1950s the Caribbean nation of Haiti drew the attention of many U S literary and artistic luminaries yet while significant studies have been published on Haiti s history none analyze visual representations with any depth This book argues that choosing Haiti as subject matter was a highly charged decision by American artists to use their artwork to engage racial social and political issues Twa scrutinizes photographs illustrations paintings and theatre as well as textual and archival sources **Acrobatic Modernism from the Avant-garde to Prehistory** Jed Rasula, 2020 Moving through a vast geographical cultural and artistic terrain and juxtaposing numerous modernist works this volume explores the multiplicity of modernism and provides in depth case studies including of James Joyce s *Finnegans Wake* the reception of jazz music in Europe and the Cubist movement in the visual arts "Visualizing Haiti in U.S. Culture, 1910-1950 " Lindsay J. Twa, 2017-07-05 From the late 1910s through the 1950s particularly the Caribbean nation of Haiti drew the attention and imaginations of many key U S artists yet curiously while significant studies have been published on Haiti s history and inter American exchanges none analyze visual representations with any depth The author calls not only on the methodologies of art history but also on the interdisciplinary eye of visual culture studies anthropology literary theory and tourism studies to examine the fine arts in relation to popular arts media social beliefs and institutional structures Twa emphasizes close visual readings of photographs illustrations paintings and theatre Extensive textual and archival research also supports her visual analysis such as scrutinizing the personal papers of this study s artists writers and intellectuals Among the literary and artistic luminaries of the twentieth century that Twa includes in her discussion are Richmond Barth Eldzier Cortor Aaron Douglas Katherine Dunham Langston Hughes Zora Neale Hurston Alexander King Jacob Lawrence James Weldon Johnson Lo Mailou Jones Eugene O Neill and William Edouard Scott Twa argues that their choice of Haiti as subject matter was a highly charged decision by these American artists to use their artwork to engage racial social and political issues **Malevich and Film** Margarita Tupitsyn, Kazimir Severinovich Malevich, Viktor Tupitsyn, 2002-01-01 The book begins with a re evaluation of Malevich s most famous painting *Black Square* a work whose meaning and function was in constant flux Through *Black Square* Malevich began to cross the bridge from the painting medium to mechanically generated production ultimately influencing the post revolutionary phase of his Suprematism and leading to his abandonment of abstraction in the late 1920s The Fourth Dimension and Non-Euclidean Geometry in Modern Art, revised edition Linda Dalrymple Henderson, 2018-05-18 The long awaited new edition of a groundbreaking work on the impact of alternative concepts of space on modern art In this groundbreaking study first published in 1983 and unavailable for over a decade Linda Dalrymple Henderson demonstrates that two concepts of space beyond immediate perception the curved spaces of non Euclidean geometry and most important a higher fourth dimension of

space were central to the development of modern art The possibility of a spatial fourth dimension suggested that our world might be merely a shadow or section of a higher dimensional existence That iconoclastic idea encouraged radical innovation by a variety of early twentieth century artists ranging from French Cubists Italian Futurists and Marcel Duchamp to Max Weber Kazimir Malevich and the artists of De Stijl and Surrealism In an extensive new Reintroduction Henderson surveys the impact of interest in higher dimensions of space in art and culture from the 1950s to 2000 Although largely eclipsed by relativity theory beginning in the 1920s the spatial fourth dimension experienced a resurgence during the later 1950s and 1960s In a remarkable turn of events it has returned as an important theme in contemporary culture in the wake of the emergence in the 1980s of both string theory in physics with its ten or eleven dimensional universes and computer graphics Henderson demonstrates the importance of this new conception of space for figures ranging from Buckminster Fuller Robert Smithson and the Park Place Gallery group in the 1960s to Tony Robbin and digital architect Marcos Novak

Rethinking Malevich Charlotte Douglas, Christina Lodder, 2007-12-31 The Russian artist Kazimir Malevich was one of the great figures of twentieth century art and a pioneer of abstraction whose painting The Black Square of 1915 has become an icon of modernism Yet he is a creative figure about whom much still remains to be elucidated Soviet scholarship ignored him for decades and Western scholars were inevitably only able to work with the limited visual and documentary material that was available to them It was only after the fall of Communism in 1991 that access to such material became easier This book represents the fruits of the research that has been conducted since then by a range of Russian and Western scholars who have been able to shed vital new light on the artist s life his training his art his career his relationships with other artists and movements and his theories

The Public Image of Henry Ford David Lanier Lewis, 1976 Skillful journalism and meticulous scholarship are combined in the full bodied portrait of that enigmatic folk hero Henry Ford and of the company he built from scratch Writing with verve and objectivity David Lewis focuses on the fame popularity and influence of America s most unconventional businessman and traces the history of public relations and advertising within Ford Motor Company and the automobile industry

Explorations in Music and Esotericism Marjorie Roth, Leonard George, 2023 Scholars explore from many fresh angles the interweavings of two of the richest strands of human culture music and esotericism with examples from the medieval period to the modern age Music and esotericism are two responses to the intuition that the world holds hidden order beauty and power Those who compose perform and listen to music have often noted that music can be a bridge between sensory and transcendent realms Such renowned writers as Boethius expanded the

definition of music to encompass not only sounded music but also the harmonic fabric of human and cosmic life Those who engage in pursuits called esoteric from ancient astrology magic and alchemy to recent and more novel forms of spirituality have also remarked on the relevance of music to their quests Esotericists have composed music in order to convey esoteric meaning performed music to create esoteric influences and listened to music to raise their esoteric awareness The academic study of esotericism is a young field and few researchers have probed the rich interface between the musical and esoteric domains In *Explorations in Music and Esotericism* scholars from numerous fields introduce the history of esotericism and current debates about its definition and extent The book's sixteen chapters present rich instances of connections between music and esotericism organized with reference to four aspects of esotericism as a form of thought as the keeping and revealing of secrets as an identity and as a signifier Edited by Marjorie Roth and Leonard George Contributors Elizabeth Abbate Malachai Komanoff Bandy Adam Bregman Charles E Brewer Benjamin Dobbs Anna Gawboy Pasquale Giaquinto Adam Knight Gilbert Joscelyn Godwin Virginia Christy Lamothe Andrew Owen Christopher Scheer Codee Ann Spinner Woodrow Steinken and Daphne Tan
