The Innocence Commission Jon B. Gould, 2007-12-01 Beyond Exonerating the Innocent Author on WAMU Radio Convicted Yet Innocent The Legal Times Review Choice Outstanding Academic Title for 2008 DNA testing and advances in forensic science have shaken the foundations of the U S criminal justice system One of the most visible results is the exoneration of inmates who were wrongly convicted and incarcerated many of them sentenced to death for crimes they did not commit This has caused a quandary for many states how can claims of innocence be properly investigated and how can innocent inmates be reliably distinguished from the guilty In answer some states have created innocence commissions to establish policies and provide legal assistance to the improperly imprisoned The Innocence Commission describes the creation and first years of the Innocence Commission for Virginia ICVA the second innocence commission in the nation and the first to conduct a systematic inquiry into all cases of wrongful conviction Written by Jon B Gould the Chair of the ICVA who is a professor of justice studies and an attorney the author focuses on twelve wrongful conviction cases to show how and why wrongful convictions occur what steps legal and state advocates took to investigate the convictions how these prisoners were ultimately freed and what lessons can be learned from their experiences Gould recounts how a small band of attorneys and other advocates in Virginia and around the country have fought wrongful convictions in court advanced the subject of wrongful convictions in the media and sought to remedy the issue of wrongful convictions in the political arena He makes a strong case for the need for Innocence Commissions in every state showing that not only do Innocence Commissions help to identify weaknesses in the criminal justice system and offer workable improvements but also protect society by helping to ensure that actual perpetrators are expeditiously identified arrested and brought to trial Everyone has an interest in preventing wrongful convictions from police officers and prosecutors who seek the latest and best investigative techniques to taxpayers who want an efficient criminal justice system to suspects who are erroneously pursued and sometimes convicted

Free of legal jargon and written for a general audience The Innocence Commission is instructive informative and highly compelling reading

Caribbean Criminal Practice Dana Seetahal, 2001-09-03 This is the first book of its kind in the Commonwealth Caribbean on Criminal Procedure Furthermore it is written by someone who has over twenty years experience in the field as a prosecutor for over a dozen years as a magistrate as a criminologist a criminal justice consultant and finally as a law school lecturer This book fills a lacuna in Commonwealth Caribbean jurisprudence in that there is currently no local or regional text on criminal practice and procedure For too long students and practitioners have had to waste time to wade through English and other text in areas that are not even relevant in order to determine their application to these jurisdictions The book provides a useful reference to clarify what the state of the statutory law is in the Caribbean when compared to similar areas in English law and to discuss the relevant statute and common law in specific areas It is a text useful not only for law school students but criminal justice professionals such as lawyers and police officers as well The content of the book includes both the statute law and common law on criminal practice and procedure in most of the relevant jurisdictions which include Trinidad Tobago Guyana Barbados Jamaica and Grenada among others Where the law is the same or similar in some jurisdictions this is emphasised in the text so as to avoid unnecessary repetition in discussion Attempts will be made to identify specific differences in the laws of different jurisdictions despite their being many commonalities Recent

developments in these areas are also discussed and the impact of the statutory changes in some countries is assessed

Criminal Law Henry F. Fradella, Professor in and Associate Director of the School of Criminology and Criminal Justice
Henry F Fradella, 2022-06-24 Criminal Law offers a unique hybrid approach to learning criminal law Most textbooks oversimplify the law by presenting the black letter law for major and defenses but they rarely present any corresponding exploration of the gray areas that exist beyond the basic rules of law Conversely casebooks present numerous edited judicial opinions often with context Criminal Law takes the best from each of these approaches by merging textual pedagogy and case analyses into a coherent framework that includes legal history social context and public policy Taking a historical approach legal expert Henry F Fradella presents the law as it evolved from English common law and compares it with the modern statutory approach to crimes set forth in the American Law Institute's highly influential Model Penal Code After providing such comparative pedagogy for each crime or defense Criminal Law presents 12 edited cases that allow the reader to contrast how the black letter law plays out in the real world After each case a series of questions challenge students to engage in critical thinking about the case and its implications as precedent Finally chapters contain a number of additional pedagogical features that focus on public policy concerns and statutory interpretation skills using penal laws from a variety of U S states
