Beethoven's symphonies, overtures, concertos, theatrical music, his single ballet and other music for the dance and several short pieces worth getting to know. Beethoven's orchestral works include some of the most iconic and popular pieces of classical music ever written. This book offers chapters on Beethoven's handling of the symphony orchestra and his contributions to its evolution as well as his approach to musical form in creating large multi-movement works. The musical descriptions provide helpful strategies for listening that invite both beginners and experienced enthusiasts to treat even the best-known pieces as something fresh, new, and relevant. In addition, Hurwitz provides extensive lists of recommended recordings of all of the music surveyed, highlighting the wide range of issues in Beethoven interpretation and performance as well as the history of his music. He encourages readers to listen actively and critically as they build their own Beethoven discographies according to their personal tastes and preferences. The book is accompanied by online audio tracks of Beethoven works selected by Hurwitz.

Conductors and Composers of Popular Orchestral Music Naomi Musiker, Reuben Musiker, 2014-02-25. World-wide in scope and focusing on the second half of the 20th century, this work provides biographies and discographies of some 500 composers and conductors of light and popular orchestral music, including film, show, theatre, and mood music. The book is arranged in two sequences: 1. Biographies and select discographies, both arranged alphabetically of the well-known and better-known conductors and composers. These entries also include a list of suggested reading for those wishing to further their studies; and 2. Select discographies of conductors about whom little or no biographical information is available. The bibliography at the end of the book covers discographical sources, popular music, and film music. This is the first time that the lives and recordings of such artists as Kostelanetz, Faith, and Gould, as well as the orchestral recordings of such great popular composers as Gershwin, Kern, Porter, Rodgers, Berlin, and Coward, have been documented and presented in an encyclopedic form.
