It Takes a Child to Raise a Parent Janis Clark Johnston, 2013-04-04 While advice abounds from a variety of sources before parents embark on their parenting journeys the only parent preparation we actually receive comes from our family and peer stories Yet most adults do not realize that in day to day challenges of guiding our children something interesting happens As we steer our children through life we reopen our own childhood roads Just when our child most needs us we become needy ourselves as adults and parents we find that we have unresolved raising issues basic needs that were not met in our childhoods Our needs and memories echo and influence many of the parenting decisions we make even though we re unaware of those influences at times Fortunately children help parents reach their needs as much as their parents help them fulfill their own Our child ends up guiding us by connecting us to some earlier time in our life when we encountered distress We dredge up a lesson and we adapt by adhering to or changing the story that we tell ourselves about who we are We re

negotiate the five basic needs that surface from our childhood memories as our youngsters pass through each of the developmental phases The self aware parent focuses on creative problem solving by focusing on one interaction at a time It Takes a Child to Raise a Parent offers an exploration of how our own childhood memories and needs influence and shape our parenting decisions in our adult lives Offering tips stories from a variety of families and step by step exercises Janis Johnston helps parents better understand and grasp the tools necessary to face parenting challenges head on and to explore new ways of understanding ourselves our children and our family interactions Expectant parents and current parents interested in understanding their own personality development as well as the many moods of childhood and their own children will find clear guidelines for understanding their roles in their children s lives as well as concrete suggestions for how to navigate the choppy waters of raising children

Fathering Right from the Start Jack Heinowitz, 2011-02-08 Coping tools and intelligent advice for today's fathers Becoming a father is a life changing event and not an easy one The new feelings emotions and reactions surfacing every day can be confusing and overwhelming summoning new dads to resolve old issues *Fathering Right from the Start* helps guide men through this life passage helping them navigate difficult times and participate meaningfully in parenting Complete with exercises checklists and firsthand accounts by fathers from all walks of life this indispensable book carries the seeds for a new tradition of men's involvement in the emotional cultural and psychical structure of the family **Voices From Fatherhood** Patrick Kilcarr, Patricia Quinn, 2013-08-06 This is a book written especially for fathers who have sons with attention deficit hyperactivity disorder and don't know how to interact with them *Voices from Fatherhood* is unique in focusing on fathers concerns in parenting their ADHD sons It offers fathers support and encouragement and specific management techniques In summary this is a book that everyone fathers mothers educators and mental health professionals will find useful in helping to understand the dynamics of modern day father son relationships **The Parenthood Decision** Beverly Engel, M.F.C.C., 2011-07-20 We are living in a time when baby showers are the most popular kind of party and when TV and movies abound with adorable babies and darling toddlers selling everything from soap to toilet paper In this baby friendly environment is it any wonder that more and more people are considering becoming parents Most people realize however that just wanting a baby doesn't mean you are physically mentally or emotionally prepared to have one Nor does the desire to have a baby necessarily mean you will be a good parent *The Parenthood Decision* will help potential parents resolve their conflicts about this major decision Here Beverly Engel helps readers find their own answers to questions such as Am I ready to be a parent What should I do if I am ready and my partner is not Will I be a better parent than my parents How will having a baby affect my relationship What are the mistakes I am most likely to make and how can I avoid them Should I have a baby on my own By presenting important information posing thought provoking questions and providing exercises Engel helps both those who are unclear whether this is the right time for them to become parents and those who are undecided about whether parenthood is right for them Armed with the self knowledge *The Parenthood Decision* provides readers will finish the book confident in their potential parenthood decision *What Is Waldorf Education?* Rudolf Steiner, 2004-11 The soul's immortality and its repeated earthly births are not new ideas in Western thought They are implicit in the Pythagorean

and Platonic traditions as well as in some branches of esoteric Judaism and Cabbala But it was not until the early years of this century that the West was given a detailed modern evolutionary philosophy of human life based on the reality of reincarnation and karma This turning point occurred when Rudolf Steiner began to make public the results of his spiritual scientific researches He viewed the revelation of reincarnation and karma as one of his most important life tasks Steiner's contribution however remains unique in its understanding of the human being as an evolving developing being of body soul and spirit On the basis of his researches presented in numerous books and lectures we begin to understand how the complex interaction of human lives between birth and death and between death and a new birth gives new meaning not only to individual lives lived on Earth in community with others but also to human history and evolution and to earthly and cosmic events This book collects many of Steiner's major statements on reincarnation and karma The primary purpose of this volume is to help readers meet the challenge of spiritual research in the area of individual evolution of the soul and spirit in the context of cultural and universal evolution Such a study can be tremendously revealing and provide spiritual understanding in a time of increasing intellectual confusion and spiritual poverty The notion of reincarnation and karma is generally associated in most minds with spiritual traditions of the East especially Hinduism and Buddhism Ren Querido's in depth sixty page introduction however places these concepts within the context of Western spiritual development and esoteric tradition showing us a panoramic view of how such ideas have developed over the centuries in the West
