Gordon, 2023-05-15 A silent clapboard church on a barren Arctic landscape is more than just a place of worship it is a symbol that can evoke fraught reactions to the history of Christian colonization In the Inuit homeland of Northern Labrador however that church is more likely to resonate with the voices of a well rehearsed choir accompanied by an accomplished string orchestra or spirited brass bands The Inuit making this music are stewards of a tradition of complex sacred music introduced by Moravian missionaries in the late 1700s a tradition that over time these musicians transformed into a cultural expression genuinely their own Called Upstairs is the story of this Labrador Inuit music practice It is not principally a story of forced adoption but of adaptation mediation and agency exploring the transformation of a colonial artifact into an expression of Inuit

aesthetic preference spirituality and community identity Often overlaying the Moravian traditions with defining characteristics drawn from pre contact expressive culture Inuit musicians imbued this once alien music with their own voices Told through archival documents oral histories of Inuit musicians and the music itself Called Upstairs tracks the emergence of this Labrador Moravian music tradition across two and a half centuries Tom Gordon presents a chronicle of Inuit leadership and agency in the face of colonialism through a unique lens In this time of reconciliation this story offers a window into Inuit resilience and the power of a culture s creative expressions

The German Symphony between Beethoven and Brahms Christopher Fifield, 2016-03-03 It was Carl Dahlhaus who coined the phrase dead time to describe the state of the symphony between Schumann and Brahms Christopher Fifield argues that many of the symphonies dismissed by Dahlhaus made worthy contributions to the genre He traces the root of the problem further back to Beethoven s ninth symphony a work which then proceeded to intimidate symphonists who followed in its composer s footsteps including Schubert Mendelssohn and Schumann In 1824 Beethoven set a standard that then had to rise in response to more demanding expectations from both audiences and the musical press Christopher Fifield who has a conductor s intimacy with the repertory looks in turn at the five decades between the mid

1820s and mid 1870s He deals only with non programmatic works leaving the programme symphony to travel its own route to the symphonic poem Composers who lead to Brahms himself a reluctant symphonist until the age of 43 in 1876 are frequently dismissed as epigones of Beethoven Mendelssohn and Schumann but by investigating their symphonies Fifield reveals their respective brands of originality even their own possible influence upon Brahms himself and in so doing shines a light into a half century of neglected nineteenth century German symphonic music **German American Annals** ,1905

Carl Maria von Weber and the Search for a German Opera Stephen C. Meyer,2003-01-17 Stephen C Meyer details the intricate relationships between the operas Der Freischütz and Euryanthe and contemporary discourse on both the Germany of the imagination and the new nation itself In so doing he presents excerpts from a wide range of philosophical political and musical writings many of which are little known and otherwise unavailable in English Individual chapters trace the multidimensional concept of German and foreign opera through the 19th century Meyer's study of Der Freischütz places the work within the context of emerging German nationalism and a chapter on Euryanthe addresses the opera's stylistic and topical shifts in light of changing cultural and aesthetic circumstances As a result Meyer argues that the search for a new German opera was not merely an aesthetic movement but a political and social critique as well *Report of the Committee of Council on Education in Scotland* Great Britain.
