The Calling of History Dipesh Chakrabarty,2015-07-15 Dipesh Chakrabarty's eagerly anticipated book examines the politics of history through the career and in many ways tragic fate of the distinguished historian Sir Jadunath Sarkar 1870 1957 One of the most important scholars in India during the first half of the twentieth century Sarkar was knighted in 1929 and is still the only Indian historian to have ever been elected an Honorary Fellow of the American Historical Association He was a universalizing and scientific historian highly influential during much of his career but by the end of his lifetime he

became marginalized by the history establishment in India History Chakrabarty writes sometimes plays truant with historians by the 1970s when Chakrabarty himself was a novice historian Sarkar was almost completely forgotten Through Sarkar's story Chakrabarty explores the role of historical scholarship in India's colonial modernity and throws new light on the ways that postcolonial Indian historians embraced a more partisan idea of truth in the name of democratic and anti colonial politics

What Is History For? Arthur Alfray Assis, 2014-01-01 A scholar of Hellenistic and Prussian history Droysen developed a historical theory that at the time was unprecedented in range and depth and which remains to the present day a valuable key for

understanding history as both an idea and a professional practice Arthur Alfaix Assis interprets Droysen's theoretical project as an attempt to redefine the function of historiography within the context of a rising criticism of exemplar theories of history and focuses on Droysen's claim that the goal underlying historical writing and reading should be the development of the subjective capacity to think historically In addition Assis examines the connections and disconnections between Droysen's theory of historical thinking his practice of historical thought and his political activism Ultimately Assis not only shows how Droysen helped reinvent the relationship between historical knowledge and human agency but also traces some of the contradictions and limitations inherent to that project

Droysen and the Prussian School of History Robert Southard, 2021-12-14 The Prussian School of History first predicted and advocated then celebrated and defended the unification of Germany by Prussia Experts in German historiography and the history of German liberalism have often complained about the lack of a book in any language that traces the origins and explains the ideas of this school of history Here is that book Robert Southard finds that for the Prussian School history had an agenda These historians generally expected history to complete its main tasks in their own time and country The outcome of their politics was really an end of history not a cessation to historical occurrences but a cessation of onward historical movement because the historical process had already achieved its long term beneficent purposes Leading us through the intricacies of important but untranslated works of J G Droysen Max Duncker Rudolph Hayn and Heinrich von Sybel Southard demonstrates their belief that the historical sequence was a continual unfolding of God's plan Indispensable for those interested in the history of German historical writing this book also has major implications for understanding the history of political liberalism **Jacob**

Burckhardt's Social and Political Thought Richard Franklin Sigurdson, 2004-01-01 Contrary to his usual portrayal as a disinterested aesthete Swiss cultural historian Jacob Burckhardt is characterised as an original social and political thinker in Richard Sigurdson's timely book Jacob Burckhardt's Social and Political Thought Burckhardt's thinking on a number of ideas including the relationship between the individual and the mass the tension between the ideals of equality and human excellence and the role of the intellectual in the modern state is the subject of insightful analysis thus providing a rare investigation into Burckhardt's culture critique of the nineteenth century Other important aspects of Burckhardt's life that undoubtedly influenced both his historical and political thought such as his ambiguous relationship with Friedrich Nietzsche are carefully scrutinised in this groundbreaking analysis of the Swiss historian Known primarily as a historian Burckhardt's historical writings provide not only a powerful critique of his own times but also a broad ranging political philosophy that can be placed within the larger German tradition of evaluating politics according to the values and standards of art and culture Although Burckhardt himself expressed his scepticism towards general theories and claimed to be devoid of a personal philosophical position through an examination of his works Sigurdson argues that both implicit and explicit political reflections and theories are recognisable Fifty Key Thinkers on History Marnie Hughes-Warrington, 2007-10-31 Fifty Key

Historians as Expert Judicial Witnesses in Tobacco Litigation Ramses Delafontaine, 2015-04-23 Historian Ramses Delafontaine presents an engaging examination of a controversial legal practice the historian as an expert judicial witness This book focuses on tobacco litigation in the U S wherein 50 historians have witnessed in 314 court cases from 1986 to 2014 The author examines the use of historical arguments in court and investigates how a legal context influences historical narratives and discourse in forensic history Delafontaine asserts that the courtroom is a performative and fact making theatre Nonetheless he argues that the civic responsibility of the historian should not end at the threshold of the courtroom where history and truth hang in the balance The book is divided into three parts featuring an impressive range of European and American case studies The first part provides a theoretical framework on the issues which arise when history and law interact The second part gives a comparative overview of European and American examples of forensic history This part also reviews U S legal rules and case law on expert evidence as well as

extralegal challenges historians face as experts The third part covers a series of tobacco related trials With remunerations as high as hundreds of thousands of dollars and no peer reviewed publications or communication on the part of the historians hired by the tobacco companies the question arises whether some historians are willing to trade their reputation and that of their university for the benefit of an interested party The book further provides 50 expert profiles of the historians active in tobacco litigation lists detailing the manner of the expert s involvement and West Law references to these cases This book offers profound and thought provoking insights on the post war forensification of history from an interdisciplinary perspective In this way Delafontaine makes a stirring call for debate on the contemporary engagement of historians as expert judicial witnesses in U S tobacco litigation
